Spring 2012 - How to Register

For more information, call 281.998.6150

San Jacinto College students have the opportunity to take classes at home via the Internet (online) through Blackboard or at their local San Jacinto College campus through hybrid classes (combined 50 percent online and 50 percent face-to-face instruction). These courses offer students convenience and flexibility and deliver the same quality instruction for which San Jacinto College’s traditional classroom offerings are known. Students enrolled in distance learning courses have access to the same student support services as those attending classes on campus. The San Jacinto College website at www.sanjac.edu provides access to library databases and other online resources once a student’s data is entered into the libraries’ circulation system.

Distance Learning course types

- Online (OL): All content is delivered through computers and multimedia using the San Jacinto College’s web-based system, Blackboard, and may include CDs and audio/video streaming or publisher content. No on-campus testing or activities are required; however, off-campus proctored exams may be required.
- Online Partial (OLP): Most of the content is delivered through computers and multimedia. These courses use Blackboard, the San Jacinto College’s web-based system, and may include CDs and audio/video streaming. On-campus testing, orientation, and/or other activities may be required.
- Online/Classroom (OLC): Content delivered through an even distribution (50 percent-50 percent) of web-based and classroom activities. These courses use components of computer instruction using the San Jacinto College’s web-based system, Blackboard, in addition to multimedia activities, and classroom time. On-Campus classroom time is required.

Registration

Students may register for these classes online at www.sanjac.edu.

Class fees

A $30 fee is assessed for each Online (OL) or Online Partial (OLP) class in which a student is enrolled.

A $15 fee is assessed for each Online/Classroom (OLC) class in which a student is enrolled.

Meningitis on Campus

Know your risk.

Learn about vaccination.

Did You know?

• Meningitis strikes about 3,000 Americans each year and claims as many as 300 lives. Between 100 and 125 cases occur on college campuses each year.
• Five to 15 college students die each year as a result.
• Cases among teenagers and young adults have more than doubled since 1991.
• The frequency of outbreaks has risen at U.S. colleges and universities during the 1990s.

What is Meningitis?

• Meningitis is a rare but potentially fatal bacterial infection.
• It can occur as either meningococcal meningitis, an inflammation that affects the brain and spinal cord, or as meningoencephalitis, the presence of bacteria in the blood.
• Permanent brain damage, hearing loss, learning disabilities, limb amputation, kidney failure, or death can result from the infection.

What Causes Meningitis?

This infectious disease is caused by the bacterium Neisseria meningitidis, a leading cause of bacterial meningitis in older children and young adults in the U.S.

Is There A Vaccine To Help Prevent Meningitis?

• A safe effective vaccine is available.
• The vaccine is 85 percent to 100 percent effective in preventing four kinds of bacteria (serious groups A, C, Y, W-135) that cause about 70 percent of disease in the U.S.
• The vaccine is safe, with mild and infrequent side effects, such as redness and pain in the injection site lasting up to two days.
• After vaccination, immunity develops within seven to 10 days. As with any vaccine, vaccination against meningitis may not protect 100 percent of all susceptible individuals.

Is Vaccination Recommended For College Students?

Certain college students, particularly freshmen who live or plan to live in dormitories or residence halls, have a six times the increased risk of contracting the disease.
