Leadership Institute at San Jacinto College
Presents:

Making Change Happen & Translating Strategy Into Results

We hold leaders responsible for the “breakthroughs” that will catapult the business forward despite increasing competition. But how can leaders lead change if they’re not ready for it or bought into it themselves? In this 1-day foundational leadership course, leaders learn the ability to drive change by understanding the importance of stakeholders, multiple viewpoints, communication, and buy in. Also, leaders learn actions they can take to engage themselves and their team in executing priorities and how to overcome the challenges that interfere with effective strategy realization.

This course will help leaders:

- Develop their ability to drive change by understanding the importance of involving stakeholders, dealing with resistance, communicating, and building buy-in
- Improve their understanding and ability to leverage insights from the Change Style Indicator (CSI)
- Enhance their skills in leading and motivating others through organizational change initiatives
- Identify the essentials elements required to successfully implement strategy
- Overcome the challenges that interfere with implementing strategy
- Keep themselves and their teams engaged in executing strategy
- Realize how to sustain execution in the long term
