Be Prepared - Act Quickly - when an emergency happens - at work, at play, at home!

First Responder - AKA -Emergency Care Attendant

Recommended course for industrial workers, healthcare providers, security officers, teachers, athletic and cheerleading coaches, band instructors, parents, & club sponsors

First Responder
EMSP 55013

Prerequisites: None
A very popular course, the First Responder class is great for on-the-job and community situations. Participants learn how to recognize and respond to emergencies. It introduces participants to the lifesaving skills of respiratory emergencies (choking and near-drowning), bleeding control, treatment of shock and fractures. In addition, participants learn how to respond to cardiac emergencies for adults, children, and infants. CPR healthcare certification is included in this course. Participants who successfully complete this course will be eligible to apply for the state and National Registry certification exam. Texas State and National Registry student application and exam fees are not included in the price of the course.

Topics Covered:
- Emergency medical services preparatory information
- Airway management/ventilation
- Patient assessment
- Trauma emergencies
- Medical emergencies
- Special considerations
- Clinically related operations
- CPR provider certification

Note: Textbook required; can be purchased at the Central campus bookstore

Course Fee: $630
