Leadership in Healthcare

- **Level 1** - Leadership Foundations - Introduction to Leadership Concepts and Application of Principles necessary for effective health professions management.

- **Level 2** - Middle Managers - Designed for mid-level leaders. Utilize competency assessment tools, discuss the cycles of leadership development, and analyze and compare the four models of leadership.

- **Level 3** - Executive Level - Designed for executive level leaders. Focus on case studies and practical application of leadership theory in complex health organizations, coaching and mentoring employees, and understanding the executive’s role in the managerial hierarchy.
