The direction in which education starts a man will determine his future life.

~ Plato
I have had the privilege of serving San Jacinto College as the chancellor for more than three years now. It has been an unbelievable ride so far, and as I look to the future, I see an unprecedented time ahead of us. This is a time when the work of community colleges across our region, state, and nation will be more important than ever before. Unprecedented also because we are facing some of the most difficult economic times in history – locally, nationally, and globally.

Despite these tough financial times, San Jacinto College continues to grow and thrive. Every day I hear stories about how our students are achieving their dreams and goals and obtaining their certificates or associate degrees, and how we at San Jacinto College have made that possible. It’s humbling to hear, because student success is at the core of everything we do.

The past couple of years have been challenging, and the upcoming years will no doubt be as well, but I am confident that San Jacinto College will continue to uphold our mission as the leader in educational excellence in our region. Our efforts enrich the quality of life for the citizens of East Harris County, Texas. Recently, the Texas Association of Community Colleges conducted an economic impact study on the effects of community colleges on the State’s economy. As part of this effort, San Jacinto College recently conducted a similar study regarding our impact on the region and the communities we serve. Here are some data points from that survey:

- For every dollar that students invest in San Jacinto College, they receive a cumulative $5.30 in higher future income over the course of their working careers.
- With an educated workforce, Texas benefits from improved health and reduced welfare, unemployment, and crime, saving the public in our community $5.7 million per year.
- Taxpayers see a 5.5 percent rate of return on their investment in San Jacinto College.
- The Harris County economy receives approximately $81.9 million in net added income each year due to the San Jacinto College payroll and operation spending.

As you can see, the importance of our college to our community is especially apparent today. Thanks to voters in our district, we have moved forward with construction on each of our campuses utilizing funding from the May 2008 bond election. These funds have allowed us to build new facilities for our allied health, science, and automotive technology programs, as well as one-stop-shop student success and welcome centers. These new facilities could not have been made possible without the vote of confidence from the citizens in our district, and for that I am thankful. With enrollment continuing in an upward trend, these new facilities to accommodate our students come at the right time for our college and students.

San Jacinto College is a wise investment in your community. Our challenge is to continue to generate greater returns for our community, even in difficult times. For more than 50 years, we have been committed to the success of our students. The group of leaders who serve as our Board of Trustees and strategic leadership team remain committed to meeting the needs of our students for the next 50 years and beyond. We are mindful of the challenges and opportunities ahead of us, while we remain grounded in our rich history. We believe in our students and our people, and we strive every day to help them develop their talents.

As we look to what lies ahead, we celebrate the past year and the success of our students and our people. San Jacinto College has a long history of student success in our community, and I thank you for your continued support.

Best regards,

Brenda Hellyer, Ed.D
Chancellor, San Jacinto College
Achieving Students’ Dreams
I love hearing about the success of our students and our College. These successes remind me that our job now, in these trying times, is more important than ever. We’ve seen challenges over the last few years, but we continue to do everything we can to make our students and our College successful.

San Jacinto College has been a pillar in this community for more than 50 years. Providing a quality and affordable education to our citizens has always been a top priority for us, and will continue to be as we head into the next 50 years. However, what we are most passionate about is our students and their success. We are here to help them achieve their dreams, passions, and goals, no matter their background, and to ensure that they obtain their certificate or associate degree.

We have so much to be proud of at San Jacinto College. Our history is rich and deep; our commitment to being the leader in educational excellence remains powerful; our promise to strengthen our region’s economy and workforce competitiveness continues to be strong; and our mission to ensure student success and enrich the quality of life in our communities remains compelling. Simply thinking about these things, and the many other ways we are touching our students’ lives, brings about an overwhelming sense of pride. San Jacinto College is changing lives.

Supporting our students is our mission at San Jacinto College. As we continue to celebrate this great institution, our people, our students, and our communities, we hope you will join us in this effort.

Marie Flickinger
Chair, San Jacinto College Board of Trustees
The San Jacinto College story begins and ends with our students. Our success depends on their success, which is why, for more than 50 years, student success has been at the heart of our mission. It is the basis for everything we do. Since our early days of one campus with 876 students, to our three campuses and nine extension centers today with more than 30,000 students, student success has been – and continues to be – our mission.

As an Achieving the Dream Leader College, San Jacinto College is committed to helping all students reach their goals of earning certificates or associate degrees. The College has implemented several student success initiatives to assist and guide students through college.

First Year Experience

• New Student Orientation for all first-time-in-college (FTIC) students includes resources for success, interaction with faculty in specific programs, and advising and registration. Students are linked with Student Orientation Leaders who also participate in the calling program so that the relationship between the FTICs and experienced students continues through the first semester.

• Student Success Course. All FTIC students testing into a college preparatory class are required to take a student success course. The course includes career assessment, advising, and registration in class at the end of the course, all of which have been proven to help students succeed. The course also includes a section of the College’s Quality Enhancement Project (QEP), which encourages students to read their textbooks.

• Retention Calling Program. All FTIC students are called twice in their first semester—once within the first two weeks and again at mid-term. The calls are to ask questions about the student’s experiences at the College, outline support available at the College, and answer any questions the student may have.

• Special Student Life events are planned around FTIC students. In the calling programs, students are invited to the events, which offer a chance for more interaction with their orientation leaders and develop ongoing relationships with experienced students.

Elimination of Late Registration

National data shows that course success rates are higher when students begin attending class on the first day. Therefore, we eliminated late registration for college preparatory students beginning with the Fall 2010 semester. That was expanded for all students the following term. The College has also accommodated students with more starting date options to assist with their busy schedules.

Pay-as-You-Go

To better manage enrollment, create efficiencies in our enrollment management process, and to help students be successful by insisting they attend class on the first day, the College has instituted a Pay-As-You-Go (PAYGO) process. PAYGO requires that students pay in full by the payment deadline. If they do not, they can still register after the payment deadline and up to the first day of class, but payment must be received on the day they register. The College offers many payment options, including an installment payment plan.

We want our students to succeed. Our students come to San Jacinto College from many different backgrounds and cultures. They come to us to learn, to grow, to discover themselves, and to achieve their dreams. Many are the first in their family to pursue a higher education. Some are returning after years away from a classroom. No matter how they came to the College or why they’re here, San Jacinto College remains committed to their success.
Workforce Development
From Credits to Careers

The success of corporate education and workforce training was developed around one simple premise: that every business is unique in its training needs. The San Jacinto College Continuing & Professional Development (CPD) division is the region’s leader in maximizing the productivity of our local workforce with business and industrial training solutions that are tailored to meet employees’ needs and unique learning styles.

The CPD division provides customized training for credit and noncredit programs, certificate or degree programs, individual course offerings, and testing and assessment. Training is offered by highly qualified individuals and experts, many times at the request of our industry partners, and can be conducted on-site or on one of our three campuses. In addition, the training that San Jacinto College is providing to certificate and associate degree seekers leads to jobs, which in turn increases the economic impact of our region.

San Jacinto College graduates contribute nearly $630 million each year to the Texas workforce. Hot job markets in the region and state continue to be in the fields of automotive technology, manufacturing, health care, and maritime. The demand is high for skilled workers in diesel and automotive technology, electrical technology, nondestructive testing, process technology, occupational health and safety, nursing, pharmacy technicians, eye care technology, surgical technology, and maritime business and logistics. San Jacinto College is taking the lead in training individuals to fill the roles of an aging workforce, and to meet the demands of a busy industry.

With 60 percent of mariners 50 years and older, and with the expansion of the Panama Canal in 2014, it is expected that the Houston region will experience a surge in the need for skilled workers in the maritime pipeline. To meet this need, San Jacinto College is aggressively pursuing solutions for the region’s workforce. The San Jacinto College maritime program is the only such program at a community college in Texas. We offer training for incumbent workers; a business degree with a maritime focus and transfer option to Texas A&M University; an international business and logistics degree, with a focus on maritime; and a new maritime technology associate degree.

The San Jacinto College office of grants management works diligently every year to secure state and federal funding for our programs. For the 2011-12 fiscal year, the office set a new record with more than $10 million in federal, state, and locally funded grant expenditures – all to assist in our efforts to produce a skilled and trained workforce. The College was also awarded $7.9 million in grant awards for the fiscal year.

With the need for a skilled workforce becoming more apparent throughout the region, San Jacinto College remains committed to providing the necessary training. We are dedicated to working with our industry partners to better our local workforce now and in the years to come.
At San Jacinto College, we are committed to taking an active role in supporting the P-16 pipeline (preschool through grade 16) throughout our service area in an effort to create a seamless transition from grade to grade, and high school to college. We are working diligently to create these educational pathways that motivate learners and expand their educational aspirations.

In early 2012, San Jacinto College was awarded a $1.2 million, three-year grant, to fund collaborative programs with local secondary school districts. The Gulf Coast Partners Achieving Student Success (GC PASS) grant, in collaboration with Pasadena and Sheldon Independent School Districts, will focus on increasing college readiness, expanding existing projects, and implementing new partnerships.

Early college high schools are a bold approach to education, providing more students with an economical fast track toward earning an associate degree. They provide students with a chance to earn a high school diploma, while completing two years of college at the same time. Early college students fare better than national averages in high school graduation rates, and San Jacinto College early college high school students are no exception. The College is a partner to three early college high schools, with the Clear Creek, Pasadena, and Sheldon Independent School Districts.

In addition to the three early college high schools, the College strongly emphasizes its dual credit programs and has partnered with the La Porte Independent School District to develop the La Porte Independent School District (LPISD) San Jacinto College Center for dual enrollment high school students. This center will expand the College’s course offerings in LPISD, in addition to the programs offered for dual credit students on all three campuses.

Providing a seamless transition throughout all levels of education includes helping our students transfer to senior institutions. To do so, the College has partnered with dozens of four-year institutions to develop formal agreements that, in some cases, guarantee admissions. Some of the universities the College holds agreements with include Sam Houston State University, Texas A&M University, Texas A&M University at Galveston, Texas Chiropractic College, Texas Woman’s University, University of Houston – Clear Lake, University of Houston College of Technology, and University of Texas Health Science Center. These agreements make it easy for our students to transfer and puts them one step closer to achieving their educational goals.
Our People

Our Greatest Asset

Our people are our greatest assets. Our employees and staff embody the San Jacinto College mission of ensuring student success and enriching the quality of life in our communities. San Jacinto College is committed to recruiting, developing, and retaining quality and diverse employees who are passionate about our educational mission. Professional development expands our people’s knowledge, creativity, and their capabilities, which in turn helps them help our students succeed.

This past year was challenging in many ways, but especially as we evaluated our budget. As a college, we were forced to find a way to manage approximately $20 million in reductions. The College’s leadership team, with a lot of input from employees and students, worked diligently to manage the decline and ensure that our budget was balanced. These were difficult decisions, but the plan that was implemented included a voluntary separation and severance plan, and a soft hiring freeze. These were difficult decisions, but San Jacinto College weathered the storm. As a result, the College has implemented a hiring process that is based on the four goals of our strategic plan.

The College remains committed to its employees, and seeing that they are successful in their careers. We have spent significant time implementing performance management for all employees, faculty, staff, and administrators. This system is unique in higher education, and rewards employees who go above and beyond in their performance. Through the performance management system, San Jacinto College has raised the bar on the expectations of employee performance, and has aligned work efforts with our four strategic goals. In addition, the College has refined its approach to professional development to create a more strategic approach of best practices for teaching, learning, and student support. Our student population continues to change and become more diverse, so our faculty and staff need to also adapt to embrace these changes and enable our students to be successful.

Through our commitment of recruiting and maintaining the best and brightest faculty and staff, San Jacinto College remains the leader in educational excellence in our region. Our people play an important role in student success, and we continue to create a culture that emphasizes our goals.
Celebrating 50 years of excellence in higher education

Reaching for Tomorrow

For 50 years, San Jacinto College has been serving the citizens and communities of East Harris County. In the Fall of 2011 the College community began a yearlong celebration of the remarkable journey that has brought us to where we are today – a leader in educational excellence in the region. Our anniversary theme, “Reaching for Tomorrow,” embodied the very things we stand for at San Jacinto College. We empower our students to achieve their goals and explore new opportunities as they reach for their own personal tomorrow – and we’ve been doing this for more than 50 years.

The support from our communities was interesting and varied during those early times. Despite lawsuits that were filed by citizen groups opposed to being included in the taxing district of a new junior college, which some deemed as the “second battle of San Jacinto,” the College opened its doors on Sept. 18, 1961, in a downtown Pasadena storefront, with an initial enrollment of 700 students that quickly grew to 876. Today, the College serves more than 30,000 credit students in 200 disciplines, and continues to see growth in our future.

The Golden Anniversary celebration kicked off early when, in February 2011, we received word that we would be receiving a Texas historical marker in honor of our 50th anniversary.

The next month, 775 San Jacinto College board members, students, and employees gathered on the football field at the Central Campus to form a giant human “50” photo to commemorate the anniversary.

Throughout the year, each campus held an event to recognize the momentous occasion. During Fall Fest at the South Campus, organizers re-created the office of the campus’ first president, Dr. Parker Williams, and offered tours of the campus. The Central Campus department of theatre and film held a special afternoon matinee dinner theater performance of the first play ever performed at the College – a three one-act performance titled “3 Aspects of Humor.” Alumni, campus and community members, and College administration were treated to a first-class performance that took them back 50 years. The North Campus celebrated at an afternoon baseball game complete with family activities, food, music, and fun.

The College highlighted each decade throughout the year with in-depth stories and informative videos that incorporated alumni, employees, and students who have been impacted by their time at San Jacinto College. You can read more and see the videos at www.sanjac.edu/anniversary.

As the yearlong celebration came to an end, hundreds came out in support of student success, and to celebrate the rich history and tradition that is San Jacinto College at the spectacular 50th Anniversary gala at Space Center Houston. The event benefitted the San Jacinto College Foundation and the Promise for Their Future scholarship fund. The evening raised more than $200,000 in support of student scholarships and teaching initiatives, and centered around the theme “Reaching for Tomorrow.”

As we celebrated 50 years of achievement, we recognize that the faces at our College have changed, our campuses themselves have transformed, and even our name has undergone a transformation. But our passion for helping students succeed has never wavered. Although so much has changed, we have not lost our foundation and vision of helping students in East Harris County to achieve their dreams, passions, and goals. We also recognize and thank the many individuals who, for more than 50 years, have dedicated their time, money, and energy into making San Jacinto College the strong institution that it is today.
How are Community Colleges Funded?

As a sector of higher education, Texas public community colleges obtain revenue from three major sources:
1. Student tuition and fees
2. Local taxpayers through property taxes
3. State appropriations

Tuition and Fees
Each community college district sets the institution’s tuition and fee structure. Tuition and fees are considered institutional funds and are not appropriated by the state. The chart below shows the average tuition / fees statewide. San Jacinto College is well below the average with in-district tuition / fees at nearly $54.67 per semester credit hour, and out-of-district tuition / fees at $95.67 per semester credit hour.

Local Taxpayers
Each community college board is authorized by state law to levy an annual ad valorem tax rate. Ad valorem taxes are used for both the maintenance and operation of the College as well as paying indebtedness on bonds issued for the purchase and construction of facilities. State law sets a limit on the tax rate that can be levied of $0.70 per $100 of valuation. Of this maximum rate no more than $0.50 per $100 of valuation may be used for bonded debt – leaving $0.20 per $100 of valuation for operations. The San Jacinto College tax rates for the 2012FY are as follows:

| Maintenance and Operations: | $0.118688 |
| Debt Service: | $0.066914 |
| **Total Tax Rate per $100 valuation:** | **$0.185602** |

State Appropriations
The state legislature appropriates general revenue funds to public community colleges. The majority of these funds are based on a community and technical college funding formula (Formula Rates multiplied by the Base Year Contact Hours). The legislature limits the use of these funds to cover instructional and administrative costs. In addition to formula funds, the legislature appropriates general revenue funds to community colleges for employee group health insurance and retirement. Less than one percent of funds appropriated to community colleges fund special items. Over time, formula funding has decreased.

Federal Funds – Restricted to Agency Requirements
In addition to the three revenue sources listed above, the College also receives funding from federal grants. The College had an increase of $20.5 million in Federal Title IV funds. The Pell Grant increased by 79.4 percent ($15.5 million) in the amount paid, and 42.4 percent in the number of recipients. The increases were primarily attributed to an increase in enrolled students who were eligible for the Pell Grant. Federal regulations eased the eligibility criteria and increased the maximum amount of Pell Grant students could receive. The College also had an increase in the number of students who participated in the Federal Family Education Loan Program. The College had 30.4 percent (479) more borrowers and 40 percent ($5 million) increase in the amount paid. The increase can be attributed to an increase in unemployed students and/or parents.

Accomplishments

- 50th Anniversary. The 2011–2012 academic year marked San Jacinto College’s 50th anniversary. Celebrations were held on each campus throughout the year, culminating in a gala that raised more than $200,000 for student scholarships and teaching initiatives.
- Achieving the Dream Leader College. Named an Achieving the Dream Leader College for positive work on the national completion agenda. San Jacinto College was one of 23 colleges nationwide to receive the prestigious award in 2011.
- Baseball. The 2012 baseball team finished its season as the national runner-up, after making a record 22nd appearance at the Junior College World Series.
- Complete College America. One of 15 community colleges participating in this grant to take bold actions to significantly increase the number of graduates and certificate completers.
- Debate Team. Emerged as one of the top teams in the nation for a second consecutive year after bringing home a gold, silver, and a bronze medal in the Phi Rho Pi National Tournament, held in Greenwich, Connecticut.
- Fiscal Affairs. Received the Government Finance Officers Association (GFOA) Distinguished Budget Presentation Award, Certificate of Achievement for Excellence in Financial Reporting (CAFR), and the Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR) for upholding the highest standards in financial reporting. The College is the only college of the 50 community colleges in Texas to have received all three awards from the GFOA.
- Grants. The office of grants management set a new record for the 2011 fiscal year with more than $10 million in federal, state, and locally funded grant expenditures. SJC was also awarded $7.9 million in grant awards for the 2011 fiscal year, including the $1.175 million Gulf Coast Partners Achieving Student Success (PASS) grant, aimed at increasing college readiness among high school students.
About San Jacinto College

Surrounded by the monuments of history, the industries and maritime enterprises of today, and the space age of tomorrow, San Jacinto College has been serving the citizens of East Harris County, Texas, since 1961. The College is committed to the goals and aspirations of a diverse population of 30,000 students in more than 200 degree and certificate options, including university transfer and career preparation. At the core of our values is student success... the reason for our being. Our comprehensive community college mission is to empower students who come with a wide variety of goals to find the assistance they need at their college, San Jacinto College.

In 2011, San Jacinto College was recognized as a leader in national student completion movement when it was named an Achieving the Dream Leader College. Achieving the Dream is a national initiative focused on helping low-income students and students of color complete their education. Throughout the course of its participation in Achieving the Dream, San Jacinto College increased Fall-to-Spring persistence through a combination of interventions including the First Year Experience Calling Program, Mandatory New Student Orientation, a student success course, free tutoring, and the Men of Honor program. San Jacinto College has also been named one of the nation’s top 120 community colleges by the Aspen Institute, indicating a commitment to student excellence and success.

Our commitment to our community and this region is to assist in developing a skilled and trained workforce to help individuals to retain or advance in their jobs, or make career transitions. San Jacinto College has made a strong commitment to academic excellence, and our award-winning faculty members are passionate about teaching. As a result of the College’s continued commitment to the community, the Deer Park Chamber of Commerce named San Jacinto College as its 2009 Industry of the Year.

In May 2008, taxpayers in the College District voiced their confidence in San Jacinto College by passing a $295 million bond referendum. Through these funds, San Jacinto College has added a state-of-the art, 92,000-square foot transportation center at the Central Campus, which houses the College’s automotive technology program. The College has also built a new allied health facility at the Central Campus, along with science buildings on each campus and welcome centers at the North and South Campuses. These welcome centers house critical student services such as financial aid, registration, and educational planning in one convenient location.

San Jacinto College faced unprecedented challenges in the wake of Hurricane Ike. The College sustained significant damage, and as a result, was closed for two and a half weeks. The instructional leaders and faculty diligently worked on a plan to complete all course learning outcomes by creatively working with in-class instruction, out-of-class assignments, and incorporating technology into learning to allow students to successfully complete the semester on time. The College plan was highly applauded by the Southern Association of Colleges and Schools (SACS) accreditation site visit team in November of 2008, when it granted the College reaccreditation. This plan has since become an integral part of the College’s instructional strategies to help students succeed and graduate.

Each year, Community College Week magazine releases a report on the nation’s community colleges, ranking the Top 100 or the Top 50 based on data gathered from the United States Department of Education. From more than 1,000 community colleges nationwide San Jacinto College ranked 31st as an associate degree producer in 2012. In addition to the top 35 overall ranking, several San Jacinto College programs rank among the nation’s top 100 as well. They are:

- Business, management, marketing, and related support services: #27
- Family and consumer sciences/human sciences: #9
- Health professions and related programs: #21
- Registered nursing, nursing administration, nursing research, and clinical nursing: #18
- Science technologies/technicians: #6

Students and employees come to San Jacinto College with various goals and aspirations, and we remain committed to their success.
Vision
San Jacinto College will be the leader in educational excellence and in the achievement of equity among diverse populations. We will empower students to achieve their goals, redefine their expectations, and encourage their exploration of new opportunities. Our passions are people, learning, innovation, and continuous improvement.

Mission
Our mission is to ensure student success, create seamless transitions, and enrich the quality of life in the communities we serve.

Accreditation
San Jacinto Community College District is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) to award the associate degree. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, or call 404.679.4501 for questions about the status of San Jacinto Community College District.
