Get Your Geek On

Discover the Science behind the Mystery

Family Night

When: Thursday, March 12, 2015

Where: San Jacinto College – Central Campus
8060 Spencer Highway
Pasadena TX, 77505
Courtyard and Gymnasium

Time: 6:00 pm – 8:00 pm

Mind Trekkers, a student group from Michigan Technological University, is bringing their STEM Road Show to us. There will be more than 100 different experiments that you can watch and participate. Students of all ages will get to touch, taste, smell, and do science, engineering, mathematics, and technology. Mind Trekkers will be your guide as you explore the excitement of STEM.

6th graders in Deer Park ISD will participate in a field trip to this event on March 13, but we thought there were others in our community (students, teachers, staff, and community members) who would enjoy this exciting hands-on learning experience.

Sponsor: Dow Chemical
Host: San Jacinto College – Central Campus
http://mindtrekkers.mtu.edu/index.php - for more information on Mind Trekkers (including their summer camp information)

http://mindtrekkers.mtu.edu/activities.php - Link to Activities Pages which includes lesson plans for the teacher that can be downloaded. The lesson plans are linked to the NCGS; however many are applicable to the Texas Standards as well.
Mind Trekkers will be set up in the Gym (Building 18) and the green space between buildings 14, 15, 18, and 20.
