ACCOUNTING FOR SMALL BUSINESS

San Jacinto College’s Continuing & Professional Development Division is providing Accounting for Small Business training to help you get the training you need. This accounting course provides the framework to evaluate the financial health and success of a business. Small Business Accounting is a practical introduction to basic accounting concepts and primary financial statements. By learning basic accounting knowledge and skills, small business owners will be better able to evaluate new opportunities, manage current operations, ensure timely and accurate tax compliance, and attract new partners or investors. This course provides a foundation for using accounting concepts as an essential tool in managing a small business.

CRN# 12606
