## Technical Programs

### Accounting

The Accounting Associate of Applied Science is an accelerated two-year accounting program for people preparing for immediate careers in accounting. Students pursuing a bachelor’s degree in accounting should refer to the information about the associate of arts degree in the Transfer Programs section and see a counselor prior to registration.

### Accounting (4ACNT)

**Certificate of Technology**

**Central and North Campuses**

The Accounting Certificate of Technology is designed to prepare students for early entry into an accounting career. At least one half of the credit hours must be earned at San Jacinto College.

These courses are required for the certificate of technology and also qualify as the first two terms of the Associate of Applied Science in Accounting.

Verification of workplace competencies;

Capstone Experience: ACNT 2366

* Courses that satisfy this requirement are listed in the Humanities and Fine Arts, and Social and Behavioral Sciences sections of the Transfer Core Curriculum.

**Students desiring to obtain a baccalaureate degree should take MATH 1314 College Algebra.
Aeronautical Technology

Central Campus
All students must have the approval of the aeronautical department chair before enrolling in flight courses. Fees for flight courses will be in addition to normal college tuition and fees and are subject to contractual and federal aviation regulation changes.

To be eligible for the A.A.S. degree, students will complete their flight courses through the College-approved flight contractor for College credit. However, the following exceptions apply:

1. Students who have obtained a private, commercial, instrument, multi-engine and/or flight instructor rating may apply for advanced placement testing.
   a. Up to 16 semester hours of credit may be awarded by advanced placement testing.
   b. All flight course requirements must be verified by an aeronautical department examination of the student’s logbook.

The College may withdraw any student from a flight course for the following reasons:

a. Student’s failure to conform to published FAA regulations
b. Student’s failure to conform to the flight contractor’s College-approved course syllabus
   c. Student’s involvement in one or more FAA reportable accidents or incidents

• The College may, upon the flight contractor’s recommendation, refuse to enroll a student in a subsequent flight course.

• A student who is denied enrollment in or is withdrawn from a flight course may appeal this decision by following the sequence specified for grade appeal in the SJC Student Handbook.

• Students may enroll in a maximum of two flight courses preregistration period.

• Aviation students must maintain a grade point average of at least 2.0 in all aviation courses. Students enrolled in flight courses must earn a grade of C or above in order to progress to the next flight course.

Hazlewood Tuition Exemption (Section 54.203, Education Code)
The following conditions apply to students seeking exemption from payment of flight fees under the provisions of Section 54.203, Education Code.

• Students eligible under the Hazlewood Act may be eligible for a partial Hazlewood exemption if the cost of registration exceeds the amount of V.A. Education Benefits received.
   (See V.A. Counselor in the Financial Aid Office for details.)

• All flight courses are eligible for the Hazlewood exemption; however, a student may enroll in each flight course only one time under this exemption. Also, a student is limited to two flight courses per term.

Career Pilot (4AERO-PLT)

Pilot Development Program (3AERO-PDP)

Associate of Applied Science Degree

Central Campus

The Pilot Development Program (PDP) at San Jacinto College prepares qualified students to enter the private and commercial aviation industry. The Pilot Development Program is designed to meet the needs of student who plan for a career as a private or commercial pilot. Students have the opportunity to earn Federal Aviation Administration (FAA) certifications for private and commercial pilot, instrument ratings and multiengine ratings.

For additional information contact the Aeronautical Technology program director or department chair.

Associate of Applied Science Degree Total  64

Capstone Experience: Eligible for Federal Aviation Administration, Private, Commercial and Instrument written and practical exams.

*College Preparatory courses (those courses beginning with 0) do not apply toward the associate degree.

**Courses which satisfy this requirement are listed in the Humanities and Fine Arts and Behavioral and Social Sciences sections of the Transfer Core Curriculum.

Notes:
1. Hours indicated for flight courses are flying hours and do not reflect the hours of oral instruction.
2. A combination of AIRP 1301, 1307, and 1311 prepares students to take the FAA Private Pilot written examination.
3. The completion of AIRP 2337 prepares the student to take the FAA Commercial Pilot written examination.
4. The completion of AIRP 1451 prepares the student to take the FAA Instrument Pilot written examination.
Technical Programs

Air Conditioning Technology

Air Conditioning Technology (6AIRC)

Occupational Certificate
North and South Campuses

The air conditioning occupational certificate program is designed to provide students with entry-level skills in the field of residential air conditioning and heating. The purpose of this certificate is to provide short-term training in air conditioning.

Students are eligible for the certificate indicated upon completion of the designated courses. All the courses in this certificate also apply toward the certificate of technology and the associate of applied science degree.

First Term                     Credit
HART 1401 Basic Electricity for HVAC ............................................. 4
HART 1407 Refrigeration Principles ............................................... 4
HART 1441 Residential Air Conditioning ...................................... 4
HART 1445 Gas Electrical Heating .................................................... 4
Occupational Certificate Total 16

Capstone Experience: HART 1441

Air Conditioning Technology (4AIRC)

Certificate of Technology
North and South Campuses

The Air Conditioning Certificate of Technology program is designed to provide students with general knowledge required of air conditioning service technicians and/or air conditioning contractors. All courses on this certificate also apply to the associate of applied science degree.

First Term                     Credit
HART 1401 Basic Electricity for HVAC ............................................ 4
HART 1407 Refrigeration Principles ............................................... 4
HART 1441 Residential Air Conditioning ..................................... 4

BUSG 2309      HART 2302      HART 2434      HART 2343
HART 2368      HART 2445      HART 2449
HART 2368 may only be taken one (1) time in this award.
Air Conditioning Technology (3AIRC)

**Associate of Applied Science Degree**

**North and South Campuses**

The Air Conditioning Technology program is designed to provide students with the entry-level skills required for employment as technicians in residential and light commercial air conditioning, refrigeration, and heating.

A graduate of this program will have a good foundation in the principles of air conditioning, refrigeration, and heating, with main emphasis on troubleshooting and service. Related topics of energy conservation, air systems analysis, and air conditioning codes are also thoroughly covered.

Applied Computer Electronics Technology

See Electronics Technology

Art and Design

The Art and Design technical curriculum is designed to provide basic preparation for entry-level employment within the greater design industry. The program will develop basic skills across a variety of design concepts and applications, and electives will enable the student to specialize in areas such as design communications, digital media and animation, and photo and video.

Art and Design (6ART-DSN)

**Occupational Certificate**

**South Campus**

This occupational certificate is designed to enable students to quickly build a broad foundation of design techniques and applications. All courses required for the Art and Design Occupational Certificate may be used in completing the Art and Design Certificate of Technology and associate of applied science degree.

Art and Design (4ART-DSN)

Certificate of Technology
South Campus
This certificate of technology is designed to meet the needs of students who desire to enter the design workforce with a more specialized skillset. Building off the occupational certificate, students will complete four electives from one of the three specialized tracts offered: design communications, digital media and animation, and photo and video. All courses required for the certificate of technology may be used in completing the Art and Design Associate of Applied Science degree.

First Term
- PHTC 1311 Fundamentals of Photography .................................. 3
- IMED 1301 Introduction to Digital Media .................................. 3
- Approved Elective ........................................................................ 3
- ARTS 2348 Digital Art I or ARTC 1325 Introduction to Computer Graphics .................................. 3

Subtotal 15

Second Term
- IMED 1316 Web Page Design I .................................................. 3
- ART 1351 Digital Video ......................................................... 3
- Approved Elective ........................................................................ 3
- ARTC 2335 Portfolio Development for Graphic Design or ARTC 2366 Practicum (or Field Experience) - Commercial and Advertising Art ........................................................................ 3
- ARTS 2349 Digital Art II or ARTC 1302 Digital Imaging I ......................... 3

Subtotal 15

Third Term
- Approved Elective ........................................................................ 3
- Approved Elective ........................................................................ 3

Subtotal 6

Certificate of Technology Total 33

Capstone Course: the 4th and final of the Approved Electives from the specific specialty block outlined under Electives. Completion of the entire block is required for the Certificate of Technology.

Approved Electives for the Art and Design Certificate of Technology are grouped into specialty blocks. Faculty will counsel students to fill their four approved elective spots with the courses from a single specialty block below:

Design Communications
- ARTS 2313 or ARTC 1317
- ARTS 2314 or ARTC 2347
- ARTC 1321 or IMED 2315

Digital Media and Animation
- ARTV 1303 or ARTV 1345
- ARTV 2301 or ARTV 1341

Photo and Video
- ARTS 2356 or PHTC 2301
- ARTS 2357 or ARTV 2341

Art and Design (3ART-DSN)

Associate of Applied Science Degree
South Campus
The associate of applied science degree is for students who want to earn a two-year degree while preparing for jobs in the design industry. Offered elective tracts will enable students to further specialize in one of three areas: design communications, digital media and animation, and photo and video. Students are strongly encouraged to complete all four courses from a single elective tract to complete their degree.

First Term
- PHTC 1311 Fundamentals of Photography .................................. 3
- ARTS 1301 Art Appreciation .................................................. 3
- Approved Elective ........................................................................ 3
- IMED 1301 Introduction to Digital Media .................................. 3
- ARTS 2348 Digital Art I or ARTC 1325 Introduction to Computer Graphics .................................. 3

Subtotal 15

Second Term
- ARTV 1351 Digital Video .......................................................... 3
- IMED 1316 Web Page Design I .................................................. 3
- Approved Elective ........................................................................ 3
- ARTC 2335 Portfolio Development for Graphic Design or ARTC 2366 Practicum (or Field Experience) - Commercial and Advertising Art ........................................................................ 3
- ARTS 2349 Digital Art II or ARTC 1302 Digital Imaging I ......................... 3

Subtotal 15

Third Term
- ENGL 1301 Composition I .......................................................... 3
- Approved Elective ........................................................................ 3
- Approved Elective ........................................................................ 3
- ARTS 1311 Design I ........................................................................ 3
- ARTS 1316 Drawing I ........................................................................ 3

Subtotal 15

Fourth Term
- ENGL 1302 Composition II .......................................................... 3
- ARTS 1312 Design II ........................................................................ 3
- *Behavioral or Social Sciences Elective ........................................... 3
- ARTS 1317 Drawing II or ARTS 2323 Life Drawing I ......................... 3
- **MATH 1333 Contemporary Mathematics for Technical Programs or MATH 1314 College Algebra .................................. 3

Subtotal 15

Associate of Applied Science Degree Total 60

Capstone Experience: The Capstone requirement will be fulfilled by a comprehensive exit exam, prepared and administered by the Art and Design technical program faculty.
Approved Electives for the AAS degree are grouped into specialty blocks. Faculty will counsel students to fill their four approved elective spots with the courses from a single specialty block below:

**Technical Programs**

**Design Communications**
- ARTS 2313 or ARTC 1317
- ARTS 2314 or ARTC 2347
- ARTC 1321  IMED 2315

**Digital Media and Animation**
- ARTV 1303  ARTV 1345  ARTV 2301  ARTV 1341

**Photo and Video**
- ARTS 2356  PHTC 2301  ARTS 2357  ARTV 2341

*Courses which satisfy this requirement are listed in Behavioral and Social Sciences section of the Transfer Core curriculum.

**College Preparatory courses (those courses which have numbers beginning with 0) do not apply toward the associate degree. Technical courses do not transfer to a senior institution. See an Art and Design Department Counselor for information.

**Audio Engineering**

See Music

**Automotive Collision Repair Technology**

Automotive Collision Repair Technology (3ABDR-CR)

**Associate of Applied Science Degree**
North and South Campuses

Collision repair is a skilled craft, which involves repairing collision-damaged motor vehicles through straightening frames, removing dents, welding torn metal, replacing damaged parts, spot repairing, and overall refinishing. Emphasis is placed on repairing late model vehicles.

Automotive Technology, Future Automotive Service Technicians (FAST) Program

**Automotive Technology (6AUTO)**

**Occupational Certificate of Technology**
Central Campus

The Automotive Technology Future Automotive Service Technicians (FAST) Program prepares individuals for employment as a General Service Automotive Technician. San Jacinto College can provide the training you need. Today’s automobiles are equipped with multiple computers and extensive electronics. Servicing vehicles equipped with active suspension, satellite guidance systems and computer controlled, multi-valve engines requires highly specialized training. Upon the completion of this curriculum, students should be prepared to take the Automotive Service Excellence (ASE) certification exams and be ready for full-time employment in the automotive service industry. Students interested in the Level I Certificate of Technology must meet with the FAST coordinator or department chair before registering for automotive classes.
Technical Programs

First Term
AUMT 1253 Theory of Automotive Electrical Systems .......... 2
AUMT 1307 Automotive Electrical Systems Lab .................. 3
AUMT 2421 Automotive Electrical Diagnosis and Repair ..... 4
Subtotal 9

Second Term
AUMT 2215 Theory of Automotive Engine Performance
Analysis I ................................................................. 2
AUMT 2317 Automotive Engine Performance
Analysis I Lab ....................................................... 3
AUMT 2231 Theory of Automotive Engine Performance
Analysis II .............................................................. 2
AUMT 2334 Automotive Engine Performance
Analysis II Lab ...................................................... 3
Subtotal 10

Occupational Certificate of Technology Total 19

Capstone Experience: Eligible for credentialing exams
†For automotive technology degree/certificate programs, NOTE: Applicants must meet the admission requirements for SJC and achieve minimum scores on assessments for mechanical comprehension and reading.

All new students are required to attend automotive orientation.

Department-specific courses must be taken in sequence and may have a prerequisite course.

Exceptions must be approved in writing by the department chair.

Students are required to furnish their own tools. (See a program instructor, program coordinator or the department chair for required tool list).

Chrysler College Automotive Program (CAP)  
(MAUTO-C)

Marketable Skills Achievement Award  
Central Campus

The Chrysler Marketable Skills Achievement Award (MSA) is part of a nationwide effort by Chrysler to produce the industry’s best automotive technicians. San Jacinto College is a National Automotive Technicians Education Foundation (NATEF) accredited institution in partnership with Chrysler. The Chrysler MSA program offers the latest in instruction and hands-on experience. Chrysler provides the latest vehicles, components, and instructional materials for hands-on training. The Chrysler MSA Award will help students obtain an entry level general service technician position in a Chrysler, Ram or Jeep dealership. Students interested in the Chrysler MSA program are required to meet with the CAP coordinator or department chair before registering for automotive classes.

Chrysler College Automotive Program (CAP)  
(4AUTO-C)

Level I Certificate of Technology  
Central Campus

The College Automotive Program (CAP) is part of a nationwide effort by Chrysler to produce the industry’s best automotive technicians. San Jacinto College is a National Automotive Technicians Education Foundation (NATEF) accredited institution in partnership with Chrysler. Chrysler provides the latest vehicles, high-tech diagnostic equipment for hands-on training. In addition to the college training, students will be required to intern at a participating Chrysler, Ram, or Jeep dealership. Not only will students learn about repair procedures for Chrysler vehicles, but they will also learn about dealership service operations. Students interested in the CAP program are required to meet with the CAP coordinator or department chair before registering for automotive classes.

Chrysler College Automotive Program (CAP) (3AUTO-C)

**Associate of Applied Science Degree**

**Central Campus**

Chrysler CAP streamlines the path to becoming a highly trained automotive technician in less than two years. In Chrysler CAP you will alternate between San Jacinto College, a Chrysler CAP College and hands-on work experience at your sponsoring dealership. Chrysler CAP instructors are Chrysler Group LLC. trained and in touch with the latest automotive trends. You will be learning from the best. Learn how to identify, analyze and solve complex automotive problems. Theory and practical application will come together as you spend time working on actual customer vehicles. Chrysler Group LLC. requires Chrysler CAP instructors to have the latest high tech training available. Chrysler CAP colleges are ready to provide the most current training available in the industry. As a Chrysler CAP student you will complete between 80-100 percent of the Chrysler training required to become a Chrysler, Jeep and Ram certified technician. The more you train, the more valuable you become as an employee. Chrysler Group LLC. donates new vehicles to its Chrysler CAP colleges. This ensures that you are training on the latest vehicle technology. If you are training on 10-year-old vehicles your training is already 10 years out of date. All Chrysler CAP Programs including San Jacinto College are accredited by the National Automotive Technicians Education Foundation (NATEF). This accreditation ensures that your training will meet or exceed industry standards. All Chrysler CAP instructors must be certified by the National Institute for Automotive Service Excellence (ASE) before they are allowed to teach in any Chrysler CAP classroom. You deserve to be trained by the best. Students interested in the Chrysler CAP program are required to meet with the CAP coordinator or department chair before registering for automotive classes.

The Ford ASSET Level II certificate prepares individuals for entry level employment as automotive service technicians. San Jacinto College can provide the training you need. Today’s automobiles are equipped with multiple computers and extensive electronics. Servicing vehicles equipped with active suspension, satellite guidance systems and computer controlled, multi-valve engines requires highly specialized training. Upon the completion of this curriculum, students should be prepared to take the Automotive Service Excellence (ASE) Certification exams and be ready for full-time employment in the automotive service industry. Students interested in the Ford Level II Certificate Program must meet with the ASSET coordinator or department chair before registering for automotive classes.

Ford Automotive Student Educational Training
(ASSET) Program (3AUTO-F)

Associate of Applied Science Degree
Central Campus
Ford ASSET Program streamlines the path to becoming a highly
   trained automotive technician to less than two years. In the Ford
ASSET Program you will alternate between San Jacinto College,
   a Ford ASSET College and hands-on work experience at your
sponsoring dealership. Ford ASSET instructors are Ford trained and
   in touch with the latest automotive trends. You will be learning from
the best. Learn how to identify, analyze and solve complex automotive
   problems. Theory and practical application will come together as
you spend time working on actual customer vehicles. Ford Motor
   Company requires Ford ASSET instructors to have the latest high
tech training available. Ford ASSET colleges are ready to provide
   the most current training available in the industry. As a Ford ASSET
student you will complete between 80-100 percent of the Ford training
   required to become a Ford certified technician. The more you train,
the more valuable you become as an employee. Ford Motor Company
donates new vehicles to its Ford ASSET colleges. This ensures that
   you are training on the latest vehicle technology. If you are training on
10-year-old vehicles your training is already 10 years out of date. All
Ford ASSET Programs including San Jacinto College are accredited
   by the National Automotive Technicians Education Foundation
(NATEF). This accreditation ensures that your training will meet or
   exceed industry standards. All Ford ASSET instructors must be
certified by the National Institute for Automotive Service Excellence
   (ASE) before they are allowed to teach in any Ford ASSET classroom.
Students interested in the Ford ASSET program are required to meet
   with the ASSET coordinator or department chair before registering
for automotive classes.

Honda Professional Automotive Career Training (PACT) Program (4AUTO-H)

Level I Certificate of Technology

Central Campus

The Honda PACT Level I certificate is designed to teach technical competence and professional level skills to incoming technicians. The curriculum has been co-designed by Honda and San Jacinto College. San Jacinto College can provide the training you need. The program requires the student to work at a Honda or Acura dealership as well as attend San Jacinto College classroom and laboratory classes, where the student will work on Honda and Acura donated training vehicles. Upon the completion of this curriculum, students should be prepared to take the Automotive Service Excellence (ASE) Certification exams and be ready for full-time employment in the automotive service industry. San Jacinto College is accredited by the National Automotive Technicians Education Foundation (NATEF). This accreditation ensures that your training will meet or exceed industry standards. Students interested in the Honda Level I Certificate Program must meet with the PACT coordinator or department chair before registering for automotive classes.

Capstone Experience: AUMT 2288 Internship Automobile/Automotive Mechanics Technology/Technician; Eligible for credentialing exams

For automotive technology degree/certificate programs:

NOTE: Applicants must meet the admission requirements for SJC and achieve minimum scores on assessments for mechanical comprehension and reading.

All new students are required to attend automotive orientation.

Department-specific courses must be taken in sequence and may have a prerequisite course.

Exceptions must be approved in writing by the department chair.

Students are required to furnish their own tools. (See a program instructor, program coordinator or the department chair for required tool list).

*Courses which satisfy this requirement are listed in the Humanities and Fine Arts, and Social and Behavioral Sciences section of the Transfer Core Curriculum.

Biomedical Clinical Equipment Technician

The Biomedical Clinical Equipment Technician curriculum is designed to provide basic training for students to enter and/or advance in the occupations associated with medical equipment maintenance and repair. A Biomedical Equipment Technician must possess the skills necessary to repair and replace parts on medical equipment, test and calibrate equipment, perform and record preventative maintenance, procure and track inventory, and facilitate training sessions on the equipment. A graduate in this program will gain the theoretical knowledge needed to understand the equipment as well as the practical (hands-on) skills to operate and repair the equipment. Employment of medical equipment repairers is projected to grow 31 percent from 2010 to 2020, much faster than the average for all occupations. Greater demand for health care services and the use of increasingly complex medical equipment will drive this employment growth. Those who have an associate degree in biomedical equipment technology should have the best job opportunities. Biomedical Repair Technicians are most commonly employed by hospitals or clinics, private companies and the military. Biomedical Repair Technicians must be able to interact with health care professionals, administrators, patients, and vendors to perform their jobs. Although some medical equipment repairers are trained to fix a variety of equipment, others specialize in repairing one or a small number of machines. For less complicated equipment, such as electric hospital beds, workers make repairs as needed. You can become a Certified Biomedical Equipment Technician (CBET) through the Association for the Advancement of Medical Instrumentation (AAMI) by sitting for the exam administered by the International Certification Commission (ICC). Additional credentials are also offered by the AAMI. Eligibility requirements vary depending on your level of education and work experience. Once you have completed an associate degree in Biomedical Equipment Technology and gained two years of work experience in the field, you are eligible for certification.

As with most technology, advances in medical equipment are constantly evolving. Because of this, you are required to complete continuing education activities in order to keep your skills and equipment knowledge up to date.

The student that begins the program in the occupational certificate will start to build a foundation for developing an understanding in medical equipment, computer, and electronics operation and repair. The next two certificates (certificate of technology and the level 2 certificate) build upon these foundation classes with more specialized biomedical equipment classes to provide the student with more theoretical and practical industry expertise and the chance for an internship. All of these certificates are stackable and lead directly to the associate of applied science. Some students with previous biomedical equipment repair experience can enter the workplace with the certificates, while students with no previous experience are directed to complete the associate of applied science degree.

  Core Curriculum.

Business Management

Business management is a two-year supervisory training program
that combines classroom management theory with practical
on-the-job training. The program leads to the associate of applied
science in Business Management. The business management
curriculum includes courses designed to provide a practical,
comprehensive program covering certain managerial activities.
The program is designed to meet the needs of people preparing
for careers in business and industry such as retailing, wholesaling,
industrial management, small business, and human resources. The
business management program supports the theory that there is
no substitute for world-of-work experience in the learning process.
Management course work includes studies in basic principles of
management, human relations, group dynamics, motivation of
individuals and groups, leadership development, organization of
work and people, study of supervisory functions, and many other
management interests, including international business and trade.

A Contemporary Approach to Management Training

Concurrent with the business management courses, the
supervision major or the small business entrepreneur major is
required to take a practicum, which coordinates job training
with classroom theory. One of the requirements of the practicum
course is that a student work a minimum of 20 hours per week at a
training station approved by a business management coordinator.
Designed as a development tool, the practicum requires that the
business management coordinator, the employer, and the student
agree on a tentative training outline or personal development plan
which, according to specific guidelines, must improve, enhance,
and demonstrate personal and professional managerial skills of the
student at work.

Note: Students taking the practicum courses should be counseled
by a business management coordinator or the department chair
prior to registration. BMGT 2368 can be taken more than once for
credit; consequently, the credit for this course, when taken more
than once, may be applied toward the certificate of technology
and toward the degree. This practicum helps the student receive
practical training and experience compatible with his or her
management career objective.
### Business Management - Entrepreneur (4BMGT-ENTR)

#### Certificate of Technology

**All Campuses**

The Business Management Entrepreneur Certificate of Technology program is designed for students who desire to earn a credential after one year of study. All courses required for the certificate of technology may apply toward the Business Management Entrepreneur Associate of Applied Science.

Child Development/Early Childhood Education

University Transfer Plan (1CHID)

Associate of Arts Degree
Central and North Campuses
An associate of arts degree is available for students working toward a baccalaureate degree with teacher certification for early childhood education (EC–6th grade, effective Fall 2008). See the child development department chair or a counselor for more information.

Students who will pursue a four-year degree at a college or university should enroll in the Associate of Arts (A.A.) degree plan for a maximum of transferable credit. All students considering transfer should consult with a counselor regarding the specific requirements of various universities for this major.

### Child Care Administrator’s Credential (6CHID-ADM)

**Occupational Certificate**

**Central and North Campuses**

The Child Care Administrator’s Credential program has been designed to provide educational training for persons interested in teaching young children and/or directing childcare centers. Upon successful completion of the 21 semester credit hours, the student will be awarded a credential approved by the Texas Department of Protective and Regulatory Services. To renew the Child Care Administrator’s Credential, a student must complete an additional child development course three years after course completion.

Child Care Administrator’s Credential
Association Training for Director (6CHID-DIR)

Occupational Certificate
Central and North Campuses
The child development Association Training for Director
Occupational Certificate program has been designed to provide
educational training for persons interested in teaching young
children and/or directing childcare centers. The certificate
requires completion of 18 semester credit hours. Upon successful
completion of the courses and upon receiving the Child
Development Associate National Credential (CDA) from the
Council of Early Childhood Recognition in Washington, D.C.,
the student meets director qualifications as set forth in the Texas
Department of Protective and Regulatory Services MINIMUM
STANDARDS and GUIDELINES.

Computer Information Systems

The computer information technology program is designed primarily for students seeking an occupational certificate, certificate of technology or associate of applied science (A.A.S.) degree. It is recommended that students complete the appropriate 18-19 credit hour core computer information technology (IT) occupational certificate before continuing into a certificate of technology or associate of applied science degree. The classes in the core IT occupational certificate will apply towards most of the other IT certificates and A.A.S. degrees.

The computer information technology (IT) curriculum prepares graduates for employment with organizations that use computers to process, manage, and communicate information. The College offers certificates and/or associate of applied science degrees in the following areas: applications programming, Web applications development, desktop support and Microsoft network administration, network administration Cisco, information technology security, and database design. Several degree specialties are available to the student based on his/her primary area of interest. In the applications programming specialty, emphasis is placed on the use of computer languages in the solution of business and scientific problems. The Web application development specialty addresses the design and development of Web pages for use on the World Wide Web. In desktop support and Microsoft network administration, a student can choose between a track with emphasis on desktop computer hardware and software support, or one with focus on the installation and maintenance of networks. In the network administration Cisco specialty, emphasis is on the design, implementation and administration of local and wide area router networks. There is also a database design certificate which emphasizes sound database design and implementation methods so that an organization’s critical data resources can be effectively utilized. This program focuses on learning basic skills which will assist them in the support and development of large database systems.

Two of the newer programs, CIT simulation and game programming and the CIT industry certification programs require students to apply for admission by contacting the department chair.

The CIT simulation and game programming certificate of technology is designed for students who are interested in advanced programming areas, as in simulations, game programming, program testing or multimedia programming.

The CIT industry certification program is intended for students with industry experience in one or more of the following areas of study: Web page design and E-commerce, beginning and advanced network administration - Microsoft, beginning and advanced network administration – Cisco, advanced information technology security, database administration, and computer hardware support. These certificates enable students to supplement their current job skills and obtain industry certifications, if desired. Each industry certification certificate consists of only the courses required to obtain a specific certification.

Note for transfer students: Due to variations in requirements at four-year colleges and universities, a student desiring a bachelor’s degree in computer science is strongly advised to consult a CIT department chair at San Jacinto College and at the institution to which they wish to transfer. This communication regarding transfer degree plans with both computer department heads will help to ensure the transition process is as smooth as possible. The field of study computer science located elsewhere in the Catalog may also be appropriate.

Core Computer Information Technology (6IT-CORE)

Desktop Support and Microsoft Network Administration

All Campuses

The desktop support curriculum is designed to provide students with skills in desktop computer hardware and software support, and prepare for exams leading to industry certifications such as A+, Net+, and Microsoft Office Specialist (MOS). Students will learn to install, maintain, repair, replace and upgrade desktop computers. Common job titles for this certificate include: Desktop Support Specialist, Helpdesk Support, and PC Technician.

The Microsoft network administration curriculum is designed to provide students with basic skills needed to work as Microsoft computer network service technicians. Emphasis is placed upon the installation and maintenance of networks. A graduate will be able to administer and troubleshoot data and communication networks. These courses can lead to the Microsoft Certified Professional (MCP), and/or Microsoft Certified Systems Engineer (MCSE), Net+, and Server+ certifications. Common job titles for this certificate include network technician, network administrator, server administrator, and network operations specialist.

Simulation and Game Programming Certificate Program

Students must apply for admission to this program by contacting the department chair and verifying that they have the appropriate interest and drive to succeed in this program’s certificates.

The CIT simulation and game programming certificate program is designed for students who are interested in advanced programming areas, as in simulations, game programming, program testing and/or multimedia programming.

Technical Programs

Network Administration - CISCO

The following curriculum is designed to provide the student with the skills needed to work as a Cisco network technician. Emphasis is placed upon the installation and maintenance of networks in business and industry. The Cisco courses can lead to the certifications of Certified Cisco Network Associate (CCNA), Certified Cisco Network Professional (CCNP), and Comptia Net+. Common job titles for graduates of the certificate and/or degree include network technician, Cisco service representative, technical support specialist, and network system administration.

#### Capstone Experience: ITSC 2364 or ITCC 2410

---

### Web Development

Web development is divided into two major areas: Web page programming and Web page design. Web page programming focuses on connecting Web pages to data sources and back-end data servers. Web page design focuses on the aesthetic layout and artistic style of the website.

### Web Page Design and Implementation Specialty (4IT-WBDI)

#### Certificate of Technology

#### All Campuses

The following trans-departmental curriculum between computer information technology and art is designed to provide the student with basic Web applications development skills. Emphasis is placed on artistic and graphic design with basic programming skills. Common job titles for this certificate include Webmaster, Web specialist, Web applications developer, and Web designer.

Web Applications Development Specialty (4IT-WBDV)

Certificate of Technology

All Campuses

The Web Applications Development Certificate of Technology is designed for students who desire to earn a credential after one year of study. All courses required for this certificate apply toward the Web Applications Development Associate of Applied Science degree. The following curriculum is designed to provide the student with basic web applications development skills. Emphasis is placed upon designing web applications to communicate with data sources and business systems. Common job titles for this certificate include Webmaster, Web Specialist, Web Application Developer, and Web Designer.

First Term

### Capstone Experience: ITNW 1345

Approved electives for the certificate are grouped into specialty blocks. Faculty will counsel students to fill their two approved elective spots with the courses from a single specialty block below:

- **Emerging Network Technologies:**  
  - ITNW 2352 and ITNW 2354
  - ITSC 2339 and (ITSE 1345 or ITNW 1313)
  - ITCC 2410 and ITNW 1392

- **Cisco Networking:**  
  - ITSC 1391 and ITCC 2337
  - ITCC 1404 and ITCC 2408

- **Desktop and Networking:**  
  - ITNW 1313
  - ITNW 2341 and ITSY 2342

- **Info Tech Security:**  
  - ITSC 2337
  - ITSC 2343 and ITSY 2359

### Capstone Experience: ITNW 1345

---

## Construction Management

The purpose for the construction management program is to prepare graduates in the field of commercial and industrial construction management. Graduates will assist in the planning, direction, and coordination of activities concerned with the construction and maintenance of commercial and industrial structures and facilities. They will participate in the conceptual development and organization of a construction project, pricing and procurement, scheduling and the overseeing of its organization, estimating, scheduling, and the implementation of the project. This includes material familiarization, specialized construction fields such as civil, carpentry, mechanical and piping systems, electrical/electronic, building envelopes, legal contracts, codes, permit processes through state and local identities with an understanding of the green elements of each.

The program will also prepare students to sit for the OSHA 10-hour certification exam and the U.S. Green Building Council LEED (Leadership in Energy and Environmental Design) Green Associate Certification Exam.

## Cosmetology

### Eyelash Extension (MCOSM-ELE)

#### Marketable Skills Achievement Award

**All Campuses**

The eyelash extension course is designed to provide the student with the basic knowledge and skills to pass the Texas Department of Licensing and Regulation Eyelash Extension License Examination for licensing and for entry level employment in professional salons. Emphasis is placed on the application of all learning skills and knowledge in a simulated salon. All key aspects of safety procedures, application, and theory of eyelash extensions are addressed.

#### First Term

<table>
<thead>
<tr>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>

Nail Technician (6COSM-NAI)

Occupational Certificate
Central Campus
The nail technician occupational certificate program is designed to provide the student with the basic manicuring skills and knowledge required to pass the Texas Department of Licensing and Regulation Examination for licensing and to gain entry-level employment in a professional salon. Emphasis is on the application of all learned skills and theoretical knowledge in a simulated salon. All key aspects of the nail profession are addressed.

First Term Credit
CSME 1330 Orientation to Nail Technology ......................... 3
CSME 1531 Principles of Nail Technology I ....................... 5
CSME 1541 Principles of Nail Technology II ..................... 5
CSME 2430 Nail Enhancement ........................................... 4
Occupational Certificate Totals 17

Verification of Workplace Competencies: Eligible for the
Credentialing Exam – Texas Department of Licensing and
Regulation Manicurist License Examination

Facial Specialist (4COSM-FAC)

Certificate of Technology
North Campus
The Facial Specialist Certificate of Technology is designed to prepare the student with the skills and knowledge required for an entry level position in the facial/esthetics profession. Students must pass all six (6) courses to be eligible to take the Texas Department of Licensing and Regulation Esthetician (Facial) License Examination for licensure.

First Term Credit
CSME 1520 Orientation to Facial Specialist ......................... 5
CSME 1421 Principles of Facial and Skin Care Technology I ........ 4
CSME 1302 Applications of Facial and Skin Care Technology I .......................................................... 3
Subtotal 12

Second Term Credit
CSME 1545 Principles of Facial and Skin Care Technology II .......................................................... 5
CSME 2431 Principles of Skin Care Technology III ................. 4
CSME 2333 Applications of Facial and Skin Care Technology II .......................................................... 3
Subtotal 12

Certificate of Technology Total 24

Verification of workplace competencies: Eligible for the credentialing exam – Texas Department of Licensing and Regulation Esthetician/Facial Specialist Licensure Examination

Cosmetology High School Operator Dual Credit
(4COSM-OPHS)

Certificate of Technology
All Campuses
The cosmetology high school operator dual credit certificate of technology program is a course of study designed to meet the needs of high school students who desire to enter the beauty industry in a minimum of time. The program will provide the student with the technical background and experience necessary to develop the skills and theoretical knowledge required to pass the Texas Department of Licensing and Regulation Examination for licensing and to gain entry-level employment in professional salons. Part-time students can complete the certificate of technology in two years. All key aspects of the cosmetology profession are addressed.

First Term Credit
CSME 1310 Introduction to Haircutting Related Theory ........ 3
CSME 1505 Fundamentals of Cosmetology .......................... 5
Subtotal 8

Second Term Credit
CSME 1553 Chemical Reformation and Related Theory ........ 5
CSME 1354 Artistry of Hair Design I .................................. 3
Subtotal 8

Third Term Credit
CSME 1355 Artistry of Hair Design II .................................. 3
CSME 2501 Principles of Hair Coloring and Related Theory ... 5
Subtotal 8

Fourth Term Credit
CSME 2344 Preparation for the State Licensing Written Examination .......................................................... 3
CSME 2245 State Licensing Practical Examination ................. 2
CSME 2310 Advanced Haircutting and Related Theory ........ 3
Subtotal 8

Certificate of Technology Totals 32

Verification of Workplace Competencies: Eligible for the Credentialing Exam – Texas Department of Licensing and Regulation Cosmetology Operator License Examination.
Cosmetology Operator (4COSM-OP)

Certificate of Technology
All Campuses
The Cosmetology Operator Certificate of Technology is a course of study designed to meet the needs of those students who desire to enter the beauty industry in a minimum amount of time. The program will provide the student with the technical background and experience necessary to develop the skills and theoretical knowledge required to pass the Texas Department of Licensing and Regulation Examination for licensing and to gain entry-level employment in professional salons. Full-time students can earn the certificate of technology in one year. All key aspects of the cosmetology profession are addressed.

Verification of Workplace Competencies; Eligible for the Credentialing Exam: Texas Department of Licensing and Regulation Cosmetology Operator License Examination.

* Courses which satisfy this requirement are listed in the Humanities and Fine Arts and Behavioral and Social Sciences sections of the Transfer Core Curriculum.
Cosmetology Instructor (6COSM-INST)

Occupational Certificate
South Campus
The cosmetology instructor occupational certificate program is the fast track to enter the world of education. The program will provide the student with the training necessary to provide innovative classroom management, curriculum development, and preparation for the Texas Department of Licensing and Regulation (TDLR) Cosmetology Instructor licensure exam.

Before registering for the cosmetology instructor courses listed below, the student must have a valid Texas Department of Licensing and Regulation Cosmetology Operator License and must provide evidence of a high school diploma or GED equivalent. Two years of cosmetology work experience or department chair approval.

First Term Credit
CSME 1435 Orientation to the Instruction of Cosmetology . 4
CSME 1534 Cosmetology Instructor I ................................. 5
Subtotal 9

Second Term Credit
CSME 2445 Instructional Theory and Clinic Operation .... 4
CSME 2544 Cosmetology Instructor IV ............................... 5
Occupational Certificate Total 18

Capstone Experience: CSME 2544
Verification of Workplace Competencies: Eligible for the
Credentiaing Exam – Texas Department of Licensing and
Regulation Cosmetology Instructor License Examination.

Cosmetology Instructor (3COSM-INST)

Certificate of Technology
All Campuses
The cosmetology instructor certificate of technology program is designed to meet the needs of those students who desire to enter the world of education in a minimum amount of time. This program will provide the student with the training necessary to provide proper instruction in varied classroom situations. Emphasis will be on classroom management, curriculum development, evaluation methods, and the use of media in the classroom.

Before registering for the cosmetology instructor courses listed below, the student must have a valid Texas Department of Licensing and Regulation License, and must provide evidence of a high school diploma or GED equivalent. Two years of work experience is preferred.

First Term Credit
CSME 1435 Orientation to Cosmetology ............................. 4

All students considering transfer should consult with a counselor regarding the specific requirements of various universities for this major.

Core Criminal Justice (6CRIJ-CORE)

Occupational Certificate

Central and North Campuses

The criminal justice department at San Jacinto Community College District has voluntarily implemented the Peace Officer Training Articulation Advisory committee (POTAAC) agreement to articulate 18 hours of college credit for licensed peace officers in Texas that meet the following qualifications:

- Successfully completed an approved 560-hour law enforcement training program.
- Successfully passed the Texas Commission on Law Enforcement Officers Standards and Education (TCLEOSE) licensing exam after 1983.
- Successfully completed six (6) semester hours of criminal justice at San Jacinto Community College District.
- Interested and qualified students should contact the department chair prior to enrollment.

The law enforcement option is for those students planning careers in criminal law, federal, state or local law enforcement, and for other students interested in learning about the operation of the criminal justice system.

## Culinary Arts

The Culinary Arts Program provides basic education and training for cooks and apprentice chefs. Sequential courses provide for development of technical food preparation and service skills, understanding of the principles of food and beverage composition, experience in the use and maintenance of professional food service equipment, and basic development of supervisory skills.

### Culinary Arts (4CULA)

#### Certificate of Technology

**North Campus**

North campus' culinary arts program is ACF (American Culinary Federation) certified, and is currently the only culinary arts program with this certification at the community college level in the greater Houston area. The ACF is widely recognized as the most prestigious accreditation in the nation for a culinary education program. Upon graduation, students will be certified ACF Culinarians.

### Pastry Chef Specialty (4CULA-PC)

**Certificate of Technology**

**North Campus**

The pastry chef program provides students an opportunity to specialize in baking and pastry. Courses in cake decorating, chocolates and confection sugars, and bakeshop production are just some of the exciting and challenging classes you will take on your road to becoming a pastry chef. As a pastry chef student, you will spend time learning from our award winning chef instructors as you learn and operate in our state of the art kitchen and bakery.

North Campus' culinary arts program is ACF (American Culinary Federation) certified, and is currently the only pastry chef program with this certification at the community college level in the greater Houston area. The ACF is widely recognized as the most prestigious accreditation in the nation for a culinary education program. Upon graduation, students will be certified ACF Pastry Culinarians.

### Pastry Chef Specialty (3CULA-PC)

**Associate of Applied Science Degree**

**North Campus**

The purpose of the pastry chef program is to provide students with an opportunity to specialize their degree plan in baking and pastry. Program graduates will acquire relevant knowledge and skills that will prepare them to work in this exciting industry. Pastry chef students will learn cake decorating, chocolates and confection sugars, bakeshop production, plate presentation, fundamentals of baking, food and beverage cost control, nutritional components of food and desserts, and basic supervisory skills.

TECHNICAL PROGRAMS

Electronics Technology

The applied computer electronics technology curriculum is designed to provide basic training for entry-level jobs in a variety of occupations in the field of electronics, telecommunications, automation, sensors, and computer engineering technology. A graduate of this program will have a good foundation in the principles of electronics with an emphasis on digital electronics and computers. The program provides training in advanced microprocessor applications and basic automation and robotics.

Graduates from this program should be capable of completing technical assignments in the fields of digital electronics, analog electronics, communications, and computer maintenance. The computer maintenance components of this program conform to the A+ and Net+ certification guidelines.

Electronics Technology (6ELCTRN-COMM)

Occupational Certificate

Central Campus

The student in electronics communication technology builds an understanding of basic analog and digital communication circuits used in radio and telephone systems. The student will be able to apply techniques for installing and troubleshooting these systems to the fields associated with radio, telephone, data-relay, and other communications systems.

First Term  Credit

Electronics Technology (4ELECTRON)

Certificate of Technology

Central Campus

The Certificate of Technology in Electronics Technology satisfies the basic technical requirements for a technician in support of electronics installation, fabrication, and troubleshooting associated with communications and embedded electronics applications. The student will design, build, and troubleshoot basic analog and digital circuits, as well as interface these circuits to systems using microprocessors and micro controllers.

Emergency Medical Technology

A criminal background check and/or drug screening is required of all health science students attending clinical courses, or practicum; and may be required prior to admission to the program.

The Emergency Medical Technology (EMT) curriculum includes a combination of class lectures, skills training and clinical training in hospital and ambulance settings. The EMT program at San Jacinto Community College District meets Texas Department of State Health Services (TDSHS) and the National Registry of EMT requirements for certification eligibility. Students registering for the emergency medical technology program must be potentially eligible to attempt TDSHS required the National Registry of EMT certification examination upon successful completion of the program. Any applicant convicted of a felony and/or misdemeanor offense may or may not be eligible for clinical participation and/or state certification.

Central and North Campuses Programs are accredited by:
Texas Department of State Health Services EMS and Trauma Systems
1100 West 49th Street
Austin, TX 78765-3199
Office: (512) 458-7111 and,

Committee on Accreditation of Allied Health Education Programs (CAAHEP), through the Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP).
8301 Lakeview Parkway
Suite 111-312
Rowlett, Texas 75088
Office: (214) 703-8445
Fax: (214) 703-8992

Students must meet departmental standards to take the National Registry certification examination. A fee is charged by the TDSHS and the National Registry of EMT for certification and/or examinations. There may also be additional charges for field experiences.

The EMT program is designed to train persons seeking positions in the emergency health care field, such as ambulance personnel, safety engineers, industrial nurses, rescue squad workers, childcare personnel, policemen, and firemen, as well as anyone who supervises or is responsible for the safety and well being of a number of people.

Philosophy
The philosophy of the Department of Emergency Medical Technology adheres to the philosophy of the San Jacinto Community College District. Emergency medical technicians and paramedics provide pre-hospital emergency medical care, rescue, and transportation of the sick and injured.
EMS education is a lifetime process of increasing knowledge and skills appropriate to the ever-growing and changing field of emergency medicine. It is the responsibility of the faculty to design and implement the educational experiences needed for a student to establish the knowledge and job entry-level skills to practice pre-hospital emergency care and crisis intervention.

The Emergency Medical Technology curriculum adheres to the curriculum set forth by the National Highway Traffic Safety Administration (NHTSA) National Emergency Medical Services Education Standards, the Texas Department of State Health Services (TDHS), the American Heart Association - Emergency Cardiac Care Committee (AHA-ECC), the International Trauma Life Support Association (ITLS), and the American Academy of Pediatrics. Components of the curriculum include anatomical and physiological functions and dysfunctions, treatment modalities, rescue, management, Advanced Cardiovascular Life Support (ACLS), International Trauma Life Support - Basic & Advanced (ITLS), Pediatric Advance Life Support (PALS), and ethical-legal responsibilities.

Anatomy and physiology requirements for the associate of applied science, certificate of technology, and occupational certificate require successful completion of the EMSP 1371 (Anatomy and Physiology for Emergency Care). However, those students planning to pursue a bachelor’s degree and those planning to transition to other health sciences are advised to complete BIOL 2301/2101 and BIOL 2302/2102 (Anatomy and Physiology I and II), or to seek the advice of counselors or program advisors about the applicability and transferability of EMSP 1371, BIOL 2301/2101 and BIOL 2302/2102.

Computer literacy requirements for the associate of applied science degree require successful completion of ITSC 1309–Integrated Software Applications I or BCIS 1305 Business Computer Applications.

Objectives
Upon completion of the program, the emergency medical technology student should be able to:

- Demonstrate the knowledge and skills necessary for pre-hospital emergency medical care and patient management.
- Demonstrate accepted characteristics of professionalism and compassionate patient management.
- Utilize accepted knowledge and skills principles to provide emergency medical care in the pre-hospital setting.
- Utilize communication skills to establish and maintain effective interpersonal relationships in the realm of emergency medical care.
- Assume responsibility for continuing education to maintain professional competency and to meet state and national certification requirements.
- Function in the capacity of an emergency medical team leader.
- Participate as a member of the emergency medical services community in providing pre-hospital care, EMS system development, and education.
- Successfully pass the National Registry of EMT registry examination for certification in the field of emergency medical services, as required for certification in the state of Texas.

Program Information
Students registering for the emergency medical technology program must be potentially eligible to write the National Registry of EMTs certification exam upon successful completion of the program. An applicant convicted of a felony and/or misdemeanor offense may not be eligible for state certification.

- Students must be 18 years of age or older to be eligible to receive certification from the Texas Department of State Health Services. Students younger than 18 years of age should contact the EMT department prior to registration.
- Students must have a high school diploma or GED certificate to be eligible to receive certification from the Texas Department of State Health Services.
- Each EMSP student is required to pay the cost of the Texas Department of State Health Services and National Registry application fees and/or any associated fees directly to the Texas Department of State Health Services or National Registry of EMTs.
Each EMSP student who registers for an EMSP clinical or practicum course (EMSP 1160, 1260, 2160, 2161, 2162, 2168, 2163, 2168) will be required to purchase appropriate clinical attire and equipment.

Each student who registers for an EMSP clinical or practicum course (EMSP 1160, 1260, 2160, 2161, 2162, 2163, 2168) will be charged an insurance fee each term for malpractice liability insurance. It is strongly recommended that students have personal health insurance if enrolled in the above courses.

A prescribed physical examination is required for clinical and ambulance rotations, based on affiliation agreements. Proof of the physical examination must be on file in the EMSP office prior to attending those rotations.

All students enrolled in health-related courses must show proof of one dose of vaccine administered on or after their first birthday or serological confirmation of immunity to measles/mumps/rubella. Vaccines for tetanus/diphtheria/pertussis are required every 10 years after the dose obtained on or after the fourth birthday. Students must present proof of having taken a tuberculosis skin test in the past 12 months, demonstrating to be free of TB. Students must also declare to have had chicken pox previously or must have received a Varicella vaccination. Other immunizations may also be required by some clinical sites. Proof of current immunizations must be on file in the EMSP office prior to attending clinical or internship rotations.

Clinical site and time assignments are made at the discretion of the College and its affiliates and are subject to change without notice.

Each student is required to present proof of current CPR certification for health professionals from either the American Red Cross or the American Heart Association to complete EMSP 2238, 1501, 1160, 1338, 1356, 1260, 2444, 2161, 2330, 2434, 2162, 2243, 2168, 1491, 2358, 2160, 2359 and 2163. American Heart Association Healthcare Provider CPR training is included in EMSP 1501 course.

Engineering Design Graphics

Engineering Design Graphics Foundation (6DFTG)

Occupational Certificate
All Campuses

Upon successful completion of 15 semester credit hours, students can apply to receive a Foundation Certificate. This certificate provides a general overview and a basic knowledge and understanding of the varied disciplines of Engineering Design Graphics. Technical Drafting, a basic Computer-Aided Drafting (CAD) course and Descriptive Geometry are three of the courses required for the Foundation certificate and all higher awards. This certificate builds a foundation for continued success in the EDG program by providing important fundamental skills necessary to pursue future studies. Drafting disciplines vary widely in terminology, construction, layout and dimensioning techniques. The four courses in this certificate will help a student determine which discipline best suits their talents and abilities.

This new exit point is being added to capture students exiting the program and is recommended by the Engineering Design Graphics Advisory Board.

Engineering Design Graphics (3DFTG)

Associate of Applied Science
All Campuses
Engineering Design Graphics is a technical field where engineering data is communicated through drawings and three-dimensional models. Drafters provide support to designers, architects, and all types of engineers, preparing documentation and creating finished drawings for production in the engineering, construction or manufacturing industries. Drafters translate the ideas of engineers and architects from rough sketches, design layouts, specifications and calculations into working drawings, maps, plans, illustrations and 3D models which are used in producing marketable products. They prepare drawings and/or 3D models using Computer Aided Drafting, Design, and 3D modeling software in the fields of mechanical, petrochemical, architectural, civil, structural and technical illustration. They make mathematical calculations related to the above fields using algebra, trigonometry, plane and solid geometry, applied mechanics and basic physics.

The Engineering Design Graphics (EDG) department provides several certificate levels and AAS degree options. Working with local industry, courses have been clustered into Specialty disciplines which provide concentration in specific areas of study, they include: Architectural/Civil/Structural, Mechanical, and Petro/Industrial.

San Jacinto College offers four AAS degrees, including: Architectural/Civil/Structural, Mechanical, Petro/Industrial, and general drafting. Each is comprised of the minimum 15 semester credit hours of general education courses and 45 semester credit hours of EDG technical coursework. Three of the AAS degrees concentrate on unique disciplines of study called Specialties. The general drafting AAS permits the student to choose from a variety of discipline courses to fulfill the degree’s requirements.

Engineering Design Graphics Petro/Industrial Specialty (3DFT-PI)

Associate of Applied Science Degree
All Campuses
Engineering Design Graphics is a technical field where engineering data is communicated through drawings and three-dimensional models. Drafters provide support to designers, architects, and all types of engineers, preparing documentation and creating finished drawings for production in the engineering, construction or manufacturing industries. Drafters translate the ideas of engineers and architects from rough sketches, design layouts, specifications and calculations into working drawings, maps, plans, illustrations and 3D models, which are used in producing marketable products. They prepare drawings and/or 3D models using Computer Aided Drafting, Design, and 3D modeling software in the fields of mechanical, petrochemical, architectural, civil, structural and technical illustration.

The Engineering Design Graphics (EDG) department provides several certificate levels and AAS degree options. Working with local industry, courses have been clustered into Specialty disciplines which provide concentration in specific areas of study, they include:
Architectural/Civil/Structural, Mechanical, and Petro/Industrial.

### Technical Programs

#### Eye Care Technology

**Central Campus**

A criminal background check and/or drug screening is required for all health science students attending clinical courses or practicum, and may be required prior to admission to the program.

Our eye care technology department consists of three levels of preparation. Students may obtain an occupational certificate, a certificate of technology, or their associate of applied science degree. This program is designed to correlate classroom and laboratory experience with clinical experience in ophthalmic offices and clinics.

The eye care technology program is accredited by the Commission on Accreditation of Ophthalmic Medical Programs (CoA-OMP). Those graduates of the Associate of Applied Science degree are eligible to petition for examination through the Joint Commission on Allied Health Personnel in Ophthalmology at the certified ophthalmic technician level. Graduates of any of the three levels are eligible to petition for examination through the American Board of Opticianry for certification as an optician and/or the National Contact Lens Examiner.

The program requires formal entry into the program via departmental interview. Only those students who have been officially admitted to the college and have met all college admission criteria will be considered. The eye care technology department accepts new students each fall term. Students who miss the fall entry may discuss spring or summer alternate entry options with the program director. The program offers both day and evening course as well as hybrid and online courses.

After acceptance into the program, the student must have a physical examination by a licensed professional and documentation of updated immunizations. A valid healthcare provider CPR card must be submitted as well.

Eye care technology student must earn a C or better in all eye care courses and maintain an overall cumulative GPA of at least 2.0 in order to remain in and/or graduate from the program. Any student earning a grade of D, W, or F in any eye care technology course must repeat the course and pass with a grade of C or higher. A second earned grade of less than C will result in the student being dismissed from the program. To re-enter into the program the student must submit a written petition to the eye care technology admission committee, and satisfy the re-admission criteria specified by the committee.

## Fire Protection Technology

The fire protection technology department of San Jacinto Community College District offers three different educational programs for aspiring firefighters and current firefighters.

For aspiring firefighters, the College offers the Firefighter Training Academy. The academy meets and exceeds all state requirements for paid/career firefighters. Students seeking an entry-level firefighter position should begin here. See below for further information regarding the Firefighter Training Academy.

For academy graduates and current firefighters, the College offers an Associate of Applied Science degree in firefighting. This program provides additional fire-related education and certification opportunities as well as courses in general education.

For academy graduates and current firefighters who wish to become paramedics, the College offers a paramedic option for the firefighting Associate of Applied Science.

Students in the fire protection technology program must be potentially eligible to participate in certification examinations for firefighters upon successful completion of the prescribed course work. An applicant who has been convicted of a felony, implicated in substance abuse, or involved in activities considered inappropriate by the Texas Commission on Fire Protection may be ineligible to participate in the certification examination. Such an applicant should contact the Texas Commission on Fire Protection in Austin, Texas, for guidance in petitioning the Commission for a decision of eligibility. A copy of the Commission’s statement of eligibility should be submitted to San Jacinto Community College District’s Fire Protection Technology chief training officer.

## Firefighter Training Academy

### Central Campus

The following courses meet and exceed the Texas Commission on Fire Protection’s curriculum requirements for Basic Fire Suppression Certification. Students who are not currently certified as an Emergency Medical Technician-Basic or higher will also need to complete the Emergency Medical Technician-Basic course. Please contact the Fire Protection Program at 281-476-1834 for further information.

- FIRS 1301 – Firefighter Certification I
- FIRS 1407 – Firefighter Certification II
- FIRS 1313 – Firefighter Certification III
- FIRS 1319 – Firefighter Certification IV
- FIRS 1423 – Firefighter Certification V
- FIRS 1329 – Firefighter Certification VI

- FIRS 1103 – Firefighter Agility and Fitness Preparation

**Firefighter Training Academy Total** 26
TECHNICAL PROGRAMS

Academy Information
New academy classes begin each Summer and Fall semester. Please contact the fire protection technology office for specific schedules and registration information. It is suggested that students contact the fire protection technology office a Term Credit in advance of anticipated enrollment, as classes fill quickly.

Firefighter Training Academy cadets must undergo a medical examination and physical performance test as defined in NFPA 1582, and submit approval documentation to the department’s chief training officer. Students not completing, or failing, the medical examination or the physical performance test are not eligible to continue in the academy and will be withdrawn. Students failing the medical examination or the physical performance test will be eligible for a 100 percent refund in accordance with the current refund policy if officially withdrawn in the registrar’s office on or before the 12th class day.

Firefighter Training Academy students must earn a grade of 70 or better on each of the academy exams in order to graduate from the academy. Failure to earn a grade of 70 or better on any exam in the academy will result in the student being administratively withdrawn from all Firefighter Training Academy courses. Please see course syllabus for details.

Each Firefighter Training Academy cadet must satisfactorily demonstrate each of the required performance skills in the curriculum manual of the Texas Fire Commission on Fire Protection in order to graduate from the Basic Fire Academy. Student-initiated withdrawals from the required physical education courses, or instructor-initiated withdrawals due to excessive absences, shall result in administrative withdrawal from the Firefighter Training Academy.

In order to complete the Firefighter Training Academy, the student must earn a grade of C or above in each of the required physical education co-requisites. Failure to earn a grade of C or above in each of the required physical education co-requisites shall result in administrative withdrawal from the Firefighter Training Academy.

Administrative withdrawal from any San Jacinto Community College District course due to disciplinary action shall result in administrative withdrawal from the Firefighter Training Academy.

Certification Information
San Jacinto Community College District fire protection courses fulfill the educational requirements for numerous fire service certifications. Please contact the fire protection technology department on the Central campus for specific information.

Note: Students must pass each HITT and HPRS course listed in the health information management A.A.S. degrees, and certificate of technology plans with a grade of C to be eligible to receive either the degree or any of the certificates.

Health Information Management (3HITT-INF)

Associate of Applied Science Degree

North Campus

The associate degree program is designed to train health information management personnel to perform a variety of technical functions including organizing, analyzing, coding, and technically evaluating health information. Health information technicians work to ensure that complete and accurate records are kept for each patient in a health care facility. The program is accredited by the Commission on Accreditation for Health Information and Information Management (CAHIIM) in cooperation with the Council on Accreditation of the American Health Information Management Association. Students are eligible to apply to write the national exam for the RHIT after completion of the A.A.S. degree.

First Term Credit
HITT 1305 Medical Terminology I ....................................................3
ENGL 1301 Composition I .................................................................3
HITT 1301 Health Data Content and Structure .................................3
SPCH 1315 Public Speaking or SPCH 1321 Business and Professional Speech ......................................................3

Note: This is a new exit point recommended by advisory committee to address the CTR National Certification.

Note: Students must pass each HITT and HPRS course listed in the health information management A.A.S. degrees, and certificate of technology plans with a grade of C to be eligible to receive either the degree or any of the certificates.

*Note: Courses which satisfy this requirement are listed in the Humanities and Fine Arts section of the Transfer Core Curriculum.

**Students must be Texas Success Initiative (TSI) complete in order to graduate: Math level 9.

### Cancer Data Management (AHITT-CAN)

**Advanced Technical Certificate**

**North Campus**

**Program Description:**
This Advanced Technical Certificate is designed to teach all aspects of the cancer registry, including survey processes, data collection/retrieval-abstracting, coding, staging and reporting; and how the cancer registry is a vital part of the health care delivery system. Upon completion of this program, the student is eligible to write for the national certification examination for Certified Tumor Registrar (CTR) from the National Cancer Registrars Association.

**Prerequisites:**
To be eligible to complete this Advanced Technical Certificate, the student must have at least a minimum of an associate degree and a medical science/basic science or Biology/Introduction to Medicine course.

*Students must have earned at least an associate degree to be eligible for this certificate.
Instrumentation Technology

Instrumentation technology training at San Jacinto Community College District falls into three categories: instrumentation installation, general instrument maintenance, and control systems technology.

Instrumentation technology is arguably the most technologically challenging field in industry today. Highly-trained instrument technicians are responsible for installing, calibrating, and troubleshooting individual process instruments, as well as complete control systems. They are expected to understand the workings of a process, as well as the complexity of the control system.

Computer control in the processing industry provides a platform for more sophisticated control strategies, and requires connecting intelligent devices together through various networking systems and protocols.

Key facilities of the instrumentation technology program at San Jacinto Community College Central campus are a fully equipped pneumatic control lab and an analog electronic lab control. We also have a 10-station SLC 5/03 Programmable Logic Controller (PLC) lab and a 10-station Emerson Process Management DeltaV Distributed Control System (DCS) lab with 10 fully-operational flowing process instrumented stations. In addition, we have access to a full-sized functioning distillation (ethylene glycol and water separation) unit to explore maintenance issues and control strategies.

Our primary focus is in providing the local processing industry with good, trainable entry-level technicians. However, our students will have the latitude of working in other related areas such as oil exploration and production, and municipal water treatment facilities for cross-country pipeline companies, and electrical power plants, and in manufacturer field technician positions.

Enhanced Skills Certificate Total 6

Interior Design

Interior Design (MINTD)

 Marketable Skills Achievement Award
Central Campus
The Interior Decorator Marketable Skills Achievement Award is an entry level certificate for those students seeking a minimum amount of education in the field of Interior Design/Decoration. The 3 classes required for this certificate expose the student to the Elements and Principles of Interior Design, the History of Interior Design from Ancient Egypt through the Renaissance, and the fundamentals of textile production and their applications as they apply to Interior Design.

This certificate would allow the recipient the opportunity to work as a design assistant or to obtain employment in a fabric showroom.

First Term  Credit
INDS 1311 Fundamental of Interior Design 3
INDS 1451 History of Interiors I 4
INDS 2407 Textiles for Interior Design 4
Marketable Skills Achievement Award Total 11

Capstone Experience: INDS 2407

Occupational Certificate
Central Campus
This certificate coupled with the INTERIOR DECORATOR MARKETABLE SKILLS ACHIEVEMENT AWARD (MINTD) is designed for the para-professional that seeks interior design education to enhance their skills in interior design related occupations such as real estate staging, project management, building and contracting, and other interior design related professions.

First Term  Credit
INDS 1449 Fundamentals of Space Planning 4
INDS 1452 History of Interiors II 4
INDS 2321 Presentation Drawing 3
DFTG 1409 Basic Computer-Aided Drafting 4
Subtotal 15

Second Term  Credit
ARTS 1301 Art Appreciation 3
Subtotal 3

Occupational Certificate 18

Capstone: INDS 2321

Interior Design (5INTD-DSGN)

Pre-Professional Level II Certificate

Technical Programs

Interior Design (INT-DSGN)

Associate of Applied Science Degree
Central Campus

This program is designed to develop the ability to identify, research, and creatively solve problems relative to interior spaces, including programming, design analysis, and space planning. The students will work with commercial and residential spaces, prepare presentations, and learn business procedures used by interior designers.

The course work for the Associates of Applied Science degree is offered over a 5 semester period, which includes one summer Term Credit. The curriculum provides a balance of technical, creative, and business training necessary for a career in interior design.

Upon completion of the Associates of Applied Science degree the student may continue their education by seeking the 12 credit hour Enhanced Skills Certificate.

Note: Students who begin their interior design education after Sept 1, 2006 will not be allowed by the Texas Board of Architectural Examiners (TBAE) to register with the State of Texas to become a Registered Interior Designer unless they graduate from a 4 year program that is approved by the Council for Interior Design Accreditation (CIDA). Please keep in mind that registration in the state of Texas is completely voluntary and that you can practice interior design without being registered with TBAE. However, a student graduating from a 2 year institution can apply for certification by NCIDQ (National Council for Interior Design Qualifications) to be NCIDQ certified with a two year degree and 5280 hours of qualified interior design coursework. Please see NCIDQ’s website for details www.ncidq.org.

First Term
- INDS 1311 Fundamental of Interior Design .................. 3
- INDS 1451 History of Interiors I .............................. 4

Capstone Experience: INDS 2405
International Business, Logistics, and Maritime

The international business, logistics, and maritime program is designed to prepare students for careers in international trade and maritime shipping administration. Graduates will work within all modes of transportation and intermodal carriage, and be overall subject matter experts in export and import management, maritime business, shipping agency and international contracts, terminal transloading, oil and gas/offshore supply chain operations, customs regulations, purchasing and sourcing of materials, international marketing and cross-cultural management, tug/barge and ship management, port operations, and implementation of asset tracking and reporting technology.

Most industries use logistics and supply chain management skills in organization operations and strategic planning. Students who successfully complete the international business program can move into hospital and health care operations, wholesale and retail management, cruise and passenger shipping, warehousing and distribution, parts and equipment logistics, and military logistics and supply chain.

### Long Term Care Administration

**Long Term Care Administration (ALTRM-CARE)**

**Advanced Technical Certificate**

**Central Campus**

Long term care of the elderly, physically ill, and mentally ill is a rapidly growing field with increasing demand for licensed administrators. As the U.S. population ages, the need for quality long term care increases and employment opportunities are expected to grow at a faster rate than many other areas of business management. Nursing home administrators are responsible for the daily operations of nursing homes that comply with federal, state, and local governmental agency requirements. They are responsible for patient admissions, facility operations, personnel management, accounting, budget planning, insurance regulations, and more. The Advanced Technical Certificate in the Long Term Care Administration (LTCA) program offered by San Jacinto College Central Campus will assist you to develop the leadership and critical thinking skills needed to succeed in this unique business environment, while also focusing on the practical aspects of long term care. As healthcare continues to follow a more businesslike approach, business degrees have become a professional necessity.

The LTCA program is designed to equip students for successful careers as the administrators of Long Term Care in Texas. The state licensing exam is offered through the Texas Department of Aging and Disability Services (DADS). The requirements to take the state exam include successful completion of 15 credit hours of course work as well as completing a 1,000 hour administrator-in-training (AIT) internship with a DADS-approved Preceptor in a licensed nursing home with a minimum of 60 beds. The LTCA program includes the required coursework and internship hours to apply to take the licensing exam required by the State of Texas. In addition to the state licensing exam, Texas also requires that you successfully complete a national exam for licensure in the state of Texas. The national exam is administered by DADS on behalf of the National Association of Boards of Examiners for Long-Term Care Administration (NAB). Questions regarding licensure and state exam requirements should be directed to the Texas Department of Aging and Disability Services (DADS) at 512-438-3011 or www.dads.state.tx.us.

The LTCA Advanced Technical Certificate program is open to anyone who already holds a minimum of a bachelor’s degree conferred by an accredited educational institution. The degree should be in business, business management, healthcare administration, nursing, or some other closely related discipline.

**Maritime**

All U.S. seamen are certified, documented and licensed by the U.S. Coast Guard. Maritime is a semester credit hour program, which provides the students with U.S. Coast Guard approved instruction to be a capable, knowledgeable mariner. The Maritime program consists of one occupational certificate, and the associate of applied science degree. The Maritime Transportation Associate of Applied Science degree maximizes the number of maritime courses the student can enroll in, and it includes 19 semester credit hours in general academic courses.

TECHNICAL PROGRAMS

Massage Therapy

Massage Therapy (4MASG-THPY)

Certificate of Technology
Central Campus
The Massage Therapy Certificate of Technology is a course of study designed to meet the needs of those students desiring to enter the massage therapy profession. Our program prepares students with the technical knowledge, lab skills, and hands-on training to successfully complete national licensing exams and gain licensure from the State of Texas as a Licensed Massage Therapist. Full-time students can earn the certificate of technology in two semesters. All key aspects of the massage therapy profession are addressed. Applicants must agree to be screened for criminal history as required by the Texas Department of State Health Services.

First Term
MSSG 1109 Health and Hygiene ....................................................... 1
MSSG 1411 Massage Therapy Fundamentals I .......................... 4
MSSG 1413 Anatomy and Physiology for Massage ................. 4
MSSG 1207 Business Practices and Professional Ethics .......... 2
MSSG 1105 Hydrotherapy/Therapeutic Modalities ................. 1
Subtotal  12

Second Term
MSSG 2413 Kinesiology for Massage ............................................. 4
MSSG 2311 Massage Therapy Fundamentals II ......................... 3
MSSG 2314 Pathology for Massage .............................................. 3
MSSG 2101 Chair Massage ......................................................... 1
MSSG 2186 Internship-Massage Therapy/Therapeutic Massage ......................................................... 1
Subtotal  16

Certificate of Technology Total  24

Verification of workplace competencies: Credentialing Exam: Eligible for Federation of State Massage Therapy Boards - Massage and Bodywork Licensing Examination (MBLEx)

Medical Assisting

Medical Assistant (4MED-ASST)

Certificate of Technology
North Campus
The Medical Assisting program is designed to train medical assistant personnel to perform both administrative and clinical duties and to report directly to an office manager, physician, or other health practitioner. Administrative duties may include answering telephones, greeting patients, updating and filing patient medical records, filling out insurance forms, scheduling appointments, handling billing and bookkeeping. Clinical duties vary according to state law including taking medical histories and recording vital signs, explaining treatment procedures to patients, preparing patients for examination, and assisting physicians during examination.

Upon completion of the medical assisting program, the student is granted a certificate of technology, is eligible to sit for the AAMA Certification Examination and earn the AAMA credential of Certified Medical Assistant (CMA-AAMA).

The San Jacinto College Medical Assisting Program is accredited by: The Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Medical Assisting Education Review Board (MAERB).

Commission on Accreditation of Allied Health Education Programs
1361 Park Street
Clearwater, FL 33756

PostY1Summer
MDCA 1254 Certified Medical Assistant Exam Review .......... 2
MDCA 1560 Clinical ................................................................. 5
Subtotal  7

Certificate of Technology Total  39

External Experience: MDCA 1560

Note: Students must pass each course listed in the certificate for Medical Assistant with a grade of C or higher to be eligible to receive a certificate of technology.
Medical Imaging

Central Campus

Medical imaging technology consists of two associate of applied sciences degrees and three certificate programs. The degree programs are the medical radiography program and the diagnostic medical sonography program. The certificate programs are the computed tomography program, the magnetic resonance imaging program, and the mammography program. Students selected for any of the medical imaging programs are required to submit a physical exam prior to admission. This physical exam must be consistent with the requirements of the teaching hospitals and agencies the student are assigned during clinical assignments and the performance standards required to function as a student imaging technologist. The exam will also include documentation of any communicable diseases along with immunity to Rubella, Measles, Mumps, and Varicella. Completion of the Hepatitis B series along with updated Tetanus, an annual TB screening and flu vaccine is required. In addition to meeting all other requirements, students entering a medical imaging program will be required to submit a criminal background check and drug screening completed by designated companies and show proof of CPR (American Heart Associate- Health Care Provider) certification. All results of the criminal background check and drug screen must be sent to San Jacinto College medical imaging department to the chair by the agency at dianne.phillips@sjcd.edu by the designated deadline. All the stated requirements must be submitted with each application submission.

Medical Radiography

Purpose Statement:
The purpose of the Medical Radiography Program is to educate and train students for entry level employment in radiography.

The program curriculum is a balance of general education and technical courses, as well as supervised clinical/practicum experience at local hospitals and clinics. The radiography courses utilize both theory and competency-based educational components designed to prepare the student to become a radiologic technologist specializing in radiography. A radiographer utilizes radiation to produce images of anatomical structures in the body.

Upon completion of the Medical Radiography Program the student is granted an associate of applied science degree, is eligible to apply for the certification examination given by the American Registry of Radiologic Technologists (ARRT), and may obtain a license from the Texas Department of State Health Services.

The Medical Radiography Program at San Jacinto College is accredited by:

Joint Review Committee on Education in Radiologic Technology (JRCERT)
20 N. Wacker Drive Suite 2850
Chicago, Illinois 60606
Phone: 312-704-5300
Email: mail@jrcert.org
Web: www.jrcert.org

The program effectiveness goals of the Medical Radiography Program are as follows:

1. Graduates will pass the national certification examination on the 1st attempt.
2. Graduates will be gainfully employed.
3. Students will complete the program within two years of acceptance.
4. Employers will be satisfied with program graduates.
5. Graduates will be satisfied with the quality of their education received.

Student Goals and Student Learning Outcomes

The student goals for the Medical Radiography Program are as follows:

1. Students will be clinically competent.
2. Students will possess critical thinking skills.
3. Students will communicate effectively.
4. Students will demonstrate professionalism.

The student learning outcomes for the Medical Radiography Program are as follows:

1. Students will demonstrate appropriate patient care.
2. Students will accurately adjust technical factors for radiographic examinations.
3. Students will properly position patients for radiographic examinations.
4. Students will demonstrate proper radiation safety.
5. Students will demonstrate ability to modify imaging examinations for non-routine patients.
6. Students will critique images for diagnostic quality.
7. Students will demonstrate effective oral communication skills.
8. Students will demonstrate effective written communication skills.
9. Students will demonstrate ethical behavior.
10. Students will demonstrate professional behavior.
**Program Admission Criteria**
This is a selective admission program. A limited number of students are admitted into the program bi-annually. Class size is determined by the availability of clinical space. Limited enrollment ensures a quality laboratory and clinical experience needed to become a competent entry level radiographer. To be considered for selection to the Medical Radiography Program the following steps must be completed:

2. Provide Official Transcripts
   - A. High School Diploma or GED Certificate required.
   - B. Students with any transfer credits MUST have college transcripts analyzed by San Jacinto College (enrollment services transcript evaluation) prior to submitting an application.
   - C. Medical Imaging Department Chair has final approval of all transferred courses that apply toward the degree in Medical Radiography.
   - D. Transcripts from other colleges must be official and sent to:
     - a) Office of Enrollment Services and b) Medical Radiography Office
3. Completion of all of the following prerequisite courses with a minimum of a “C” before admission to the program.
   - BIOL 2401 Anatomy & Physiology I
   - BIOL 2402 Anatomy & Physiology II
   - ENGL 1301 Composition I
   - RADR 1201 Introduction to Radiography
   - MATH 1314 College Algebra or 1333 Contemporary Mathematics for Technical Programs

Any of the following support courses requires a minimum of a “C” also and if not achieved the course must be retaken until successful.
- Speech 1315 Public Speaking or 1318 Interpersonal Communications
- Behavioral or S. Science
- Humanities or Fine Arts

Academic science courses must not have been completed earlier than five (5) years prior to program acceptance. RADR 1201 must be completed no more than three (3) years prior to a student’s entry into the Medical Radiography Program. If either of these time requirements are exceeded the student must retake the course successful with a minimum grade of “C”. Higher level math such as Calculus may be evaluated for possible substitution if a student was placed out of college algebra. A higher level English course may be evaluated for possible substitution if a student has placed into a higher level English. Substitutions must be approved by the Department Chair and Dean of Health Sciences.

4. Completion of the program required entrance examination (HESI A2). The original score sheet indicating a score of 70% or higher on each required section must be submitted with application.

5. Computer Literacy
Students must be deemed computer literate before being accepted into the Medical Radiography Program by either completing the Computer Literacy Skills Test at SJC, by successfully completing ITSC 1309 or BCIS 1305 or course approved by the department chair. To schedule the computer literacy test please contact Computer Information Technology at 281-476-1501 ext. 1509 or contact the Medical Imaging Department by calling 281-476-1871 for more details.

6. Attend a MANDATORY information meeting as posted on the San Jacinto College Website or by calling 281-476-1871 for dates.

7. Receive and complete a Medical Imaging application by deadline of June 1 or October 15.

**Selection Criteria**

1. Students who apply for admission to the Medical Radiography Program will be selected based on the total score on the application rubric to include both GPA and HESI A2 entrance examination scores. Meeting minimal entry requirements does not guarantee program admission.

**Application Periods**
The Medical Radiography Program accepts applicant twice a year. Application periods are April 1 through June 1, for fall admission; and September 1 through October 15, for spring admission.

Applicants will be notified regarding their selection for admission into the Medical Radiography Program. Applicants not selected for admission must re-apply to be considered for future admission. Applicants who are selected for admission into the Medical Radiography Program, but do not accept the position or do not complete the enrollment process must also re-apply. It is the student’s responsibility to stay current with any changes in program requirements.

**Transfer Students:**
Course work from another radiography program will be evaluated on an individual basis by the Department Chair and the Admission Appeals Committee. A grade of “C” or better is required on all transferred prerequisite, general education, and program specific courses. The student requesting transfer must submit a request by the Medical Radiography Admission Appeals Committee and be granted an interview. Transfer students from another program will be admitted on a space-available basis.

**Student Progression:**
If a student earns a grade of D, W, or F in a medical imaging (RADR) course, the student will not be permitted to continue or to graduate from the program until that course has been repeated and a grade of C or above has been earned. Three grades of D, F, or W in any combination from a RADR course will cause permanent suspension from the Medical Radiography Program. A student may appeal their suspension with the Medical Radiography Appeals Committee.
### Medical Radiography (3MED-RAD)

**Associate of Applied Science Degree**

**Central Campus**

Students who do not enroll in the medical radiography program for one or more semesters after beginning the program must make written petition to the medical imaging department chair for re-entry into the program.

### Diagnostic Medical Sonography (3MED-SONO)

**Associate of Applied Science Degree**

**Central Campus**

A medical sonographer is a person qualified to provide patient imaging using ultrasound under the supervision of a medical doctor. The diagnostic medical sonography program prepares students to work in entry-level positions in hospitals and other health care facilities. Upon completion of the diagnostic medical program the student is granted an associate of applied science degree and is eligible to apply to take exams for the American Registry of Diagnostic Medical Sonographers (ARDMS) and/or the American Registry of Radiologic Technologists (ARRT).

**Diagnostic Medical Sonography Program Goals:**

1. Graduates will be clinically competent sonographers.
2. Graduates will be eligible to apply for, take and pass the American Registry of Diagnostic Medical Sonography certification exams upon completion of the program.
3. Graduates will be able to find employment.
4. Graduates will be satisfied with their education.
5. Employers will be satisfied with program graduates.

**Admission Criteria:**

A limited number of students are admitted into the program annually. Class size is determined by the availability of clinical space. A two year or higher allied health degree/certificate in a patient care related area or a bachelor’s degree (any major) is required. All applicants must have completed the prerequisite courses prior to admission to the program. The applicant must submit a current resume', official transcripts, and two letters of recommendation. The applicant must complete and submit an application to the medical imaging department. Applicants must attend a MANDATORY information meeting as posted on the San Jacinto College website or by calling 281-476-1871 for dates. The applicant must also submit required health records, CPR (American Heart Associate- Health Care Provider), criminal background check, and drug screen as stated for all medical imaging students – see section directly under medical imaging technology and Central Campus for an explanation of requirements. Acceptance into the sonography program is determined after review of the application and completion of all requirements. Prospective applicants should email kristi.chachere@sjcd.edu or call the medical imaging department at 281-476-1871 for additional information.
**Technical Programs**

**Subtotal** 10

**Associate of Applied Science Degree Total** 69

**Capstone Experience: DMSO 2462**

* Courses which satisfy the Humanities/Fine Arts are listed in these sections in the Transfer Core Curriculum of the Educational Programs section of the catalog.

**Computed Tomography (EMRAD-CT)**

**Enhanced Skills Certificate**

**Central Campus**

The CT program includes advanced type of health professions work-based instruction that helps students synthesize new knowledge, apply previous knowledge, or gain experience managing the workflow. While enrolled in the CT Program practical experience is simultaneously related to theory.

**Minimum program admission criteria:**

Applicants must be ARRT registered in either Radiography or Nuclear Medicine and hold a Texas Department of State Health Services Medical Radiologic Technologist License. The student must complete and submit an application to the Medical Imaging Department. The applicant must also submit required health records, CPR (American Heart Associate-Health Care Provider), criminal background check, and drug screen as stated for all Medical Imaging students – see section directly under Medical Imaging Technology and Central Campus for an explanation of requirements. Acceptance into the Computed Tomography Program is determined after review of the application and completion of requirements. Prospective participants should email tonia.shivers@sjcd.edu or call the Medical Imaging Department at 281-476-1871 for additional information.

**First Term**
- RADR 2340 Sectional Anatomy for Medical Imaging ............... 3
- CTMT 2336 Computed Tomography Equipment and Med ... 3
- CTMT 2360 Clinical I-Computed Tomography Technology/Technician .................................................. 3
- CTMT 2361 Clinical II-Computed Tomography Technology/Technician .................................................. 3

**Enhanced Skills Certificate Total** 12

**Capstone Experience: CTMT 2361**

**Magnetic Resonance Imaging (EMRAD-MRI)**

**Enhanced Skills Certificate**

**Central Campus**

The MRI program builds a foundation of general principles for learning to operate magnetic resonance imaging equipment. The program focuses on building a sound understanding of the underlying scientific theory and routine clinical practice leading to the MRI certification exam. The MRI program also emphasizes the fundamental principle of magnetism and interaction of living matter with magnetic fields as well as introducing the concepts and scientific principles employed in MRI.

**Minimum program admission criteria:**

Applicants must be ARRT registered in one of the following: Radiography, Nuclear Medicine, or Radiation Therapy or registry eligible and hold a Texas Department of State Health Services Medical Radiologic Technologist License. The applicant must complete and submit an application to the medical imaging department. The applicant must also submit required health records, CPR (American Heart Associate-Health Care Provider), criminal background check, and drug screen as stated for all Medical Imaging students – see
section directly under Medical Imaging Technology and Central Campus for an explanation of requirements. Acceptance into the MRI Program is determined after review of the application and completion of requirements. Prospective participants should email debbie.dice@sjcd.edu or call the Medical Imaging Department at 281-476-1871 for additional information.

**Mammography Enhanced (EMRAD-MAMM)**

**Enhanced Skills Certificate Central Campus**

The Mammography Program is designed to prepare the registered radiologic technologist to enter the advanced field of mammography. The objective of the program is to provide the registered radiologic technologist with the training, knowledge, and skills needed to prepare for and successfully pass the mammography post primary examination offered by ARRT; in addition for entry level employment in mammography.

A mammographer uses specialized x-ray equipment to obtain diagnostic breast images and breast tissue biopsies. This specialized technologist is pivotal in the diagnosis of breast tissue abnormalities in both men and women. Students will learn to position patients and manipulate equipment to provide quality images. Furthermore, students will develop an understanding of anatomy, pathology, communication skills and specialty equipment.

The mammography courses are offered each spring and fall semesters. The entire program length is 16 weeks. Lecture and laboratory are offered the first eight weeks as evening classes. Clinical rotations are offered the second eight weeks as day time rotations, averaging 20 hours a week.

**Minimum program admission criteria:**

Applicants must be ARRT registered Radiography and hold a Texas Department of State Health Services Medical Radiologic Technologist License. The applicant must complete and submit an application to the Medical Imaging Department. Acceptance into the Mammography Program is determined after review of the application and completion of requirements. The applicant must also submit required health records, CPR (American Heart Associate- Health Care Provider), criminal background check, and drug screen as stated for all Medical Imaging students – see section directly under Medical Imaging Technology and Central Campus for an explanation of requirements. Acceptance into the Mammography Program is determined after review of the application and completion of requirements. Prospective participants should email liza.velasquez@sjcd.edu or call the Medical Imaging Department at 281-476-1871 for additional information.

**Medical Laboratory Technology**

**Central Campus**

A criminal background check and/or alcohol and drug screening is required on all health science students attending clinical courses, or practicum, and may be required prior to admission to the program.

The medical laboratory technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 8410 W. Bryn Mawr Ave., Suite 670, Chicago, Illinois, 60631, 773.714.8880. Upon completion of the program, the student is granted an associate of applied science degree and is eligible to apply for the certification examination given by the Board of Registry of the American Society of Clinical Pathologists and/or the National Certification Agency for Medical Laboratory Personnel.

The program curriculum is a balance of general educational and technical courses, as well as supervised practicum work at area hospitals. This provides the student an opportunity for educational development, as well as skill competency.

Prior to entering the medical laboratory technology program, students may take any of the general liberal arts courses required in the medical laboratory technology program.

Medical laboratory technology students must earn a grade of C or above in each medical laboratory technology course and required science courses, and maintain an overall grade point average of at least 2.0 in order to graduate from the medical laboratory technology program.

If a student earns a grade of D, W, or F in a medical laboratory technology or science course, the student will be required to repeat the course in which the unsatisfactory grade was earned and pass that course with a grade of C or better in order to progress.

Clinical practicum absences must be made up within the term in which they occur.

Because clinical practicum space is limited, students are admitted on a competitive basis. Applicants or those seeking additional information should contact the medical laboratory program director.
or the department chair for allied health. Applications for admission to the Fall term class are accepted beginning in January.

Students are required to purchase uniforms and accessories. Each student is responsible for his/her own transportation to the clinical areas. Each student who registers for medical laboratory technology is required to purchase student liability insurance the term he/she starts the clinical laboratory practicum.

**Philosophy**
The philosophy of the department of clinical laboratory science (CLS) parallels the philosophy of San Jacinto College District. Medical laboratory technology is that allied health care field which performs laboratory test procedures and analyses used in the diagnosis, treatment, and prognosis of disease, as well as the maintenance of health. Medical laboratory technicians practice their specialty under the direction of licensed physicians in various settings which include hospitals, private and public health clinics, and industrial laboratories.

The medical laboratory technician must be able to apply the knowledge acquired through academic studies and student labs to the clinical setting so that meaningful test results will be obtained to report to the patient’s physician. Graduates of the medical laboratory technology program will be prepared to practice medical laboratory technology in all major areas of the clinical laboratory as contributing members of the health care team.

**Program Admission Criteria**
Students who apply for admission to the program of medical laboratory technology (MLT) will be selected on the basis of their highest ACT/SAT test scores or their highest grade point average at San Jacinto College District, dependent upon the option under which they apply (Option A or Option B following).

Option A: SAT score of 680 or above on test taken prior to April 1995 or a score of 810 or above on an SAT taken on or after April 1, 1995; or an ACT composite score of 18 or above (ACT composite score of 15 or above if taken before October 1989).

Option B: Applicants must complete at San Jacinto Community College District 10 semester hours as specified below with no grade lower than C.

- BIOL 2401
- ENGL 1301
- MATH 1314 or MATH 1333

Applicants seeking admission by Option B may petition the admission coordinator to take a more advanced biology, mathematics or English course if they have completed the above-stated courses with a grade of C or above at another accredited institution.

Students must apply for admission to the program of medical laboratory technology by submitting a formal application and all required official documents to the Office of Enrollment Services.

Applicants to the medical laboratory technology program will be notified by mail regarding their program admission status. Applicants who are not selected for admission to the medical laboratory technology program must re-apply before the next term. Applicants who are accepted for admission to the medical laboratory technology program, but who do not enroll, must re-apply. Applicants must meet the College’s general admission requirements as well as the program admission criteria.

After acceptance into the program, an applicant must have a physical examination by a licensed physician (M.D., D.O.) and an orientation with a member of the department of clinical laboratory science.

Students are required to purchase uniforms and accessories.

## Mental Health Services

Mental health technician training prepares students to care for mentally impaired or emotionally disturbed individuals following physician instructions and hospital procedures. Potential work opportunities include:

- Aides within inpatient/outpatient psychiatric facilities
- Day treatment centers
- Counseling centers
- Rehabilitation facilities

The mental health services program is designed to train mental health technicians and prepare individuals to meet the requirements for testing as a Licensed Chemical Dependency Counselor (L.C.D.C.). Each program offers a practicum class which allows students to apply classroom skills in a treatment setting.

The mental health technician (psychiatric aide/technician) certificate of technology prepares students to work with disturbed individuals following physician instructions and hospital procedures. Psychiatric aides and technicians observe and record patient behavior and present findings to counselors, nurses, and other professional staff. They intervene in crisis situations, actively moderate client behavior, and assist with feeding, moving, dressing patients, personal hygiene, and activities of daily living.

The substance abuse counseling certificate of technology prepares individuals to enter the field of human services and provide specialized services to individuals and their families experiencing the effects of substance abuse. Graduates will be able to identify appropriate assessments, diagnosis, and treatment of individuals who are, or have been, engaged in substance abuse. The program, plus 4,000 hours of work experience, provides individuals with the necessary educational and employment requirements to become eligible for testing as a Licensed Chemical Dependency Counselor (L.C.D.C.).

The combination of the certificates of technology and general education leads to an Associate of Applied Science in mental health clinical and counseling psychology. Students who do not have an associate degree (or higher) in a behaviorally related field will not be eligible for full licensure in the State of Texas. An associate degree (or higher) is required for full licensure. A student can complete the certificate of technology course work, enter the workforce as a counseling intern and continue course work towards an associate degree before receiving their L.C.D.C.

Music

The audio engineering curriculum is designed for students seeking careers as sound recording or sound reinforcement engineers. Employment opportunities exist in recording studios, television and radio stations, convention centers, hotels, churches and other private entities. The training places a heavy emphasis on the theory and hands-on application of recording, mixing, and effects-processing equipment. Also required are musical proficiency and an understanding of business and music business systems.

*Subject to placement testing, a student placing out of MUSI 1301 may take MUSI 1211, 1212, 1216, and 1217 during the first year and substitute a three-hour elective for MUSI 1301.*

**Courses which satisfy this requirement are listed in the Social and Behavioral Sciences section of the Transfer Core Curriculum.**
Students may substitute private piano for class piano. A student whose major instrument is piano should substitute another secondary instrument.

Students planning to transfer into a bachelor’s degree program in music may substitute MUSI 1307 Survey of Music Literature.

## Non-Destructive Testing Technology

### Quality Assurance Technology (6WLD-QAT)

#### Occupational Certificate

**Central Campus**

Persons interested in the field of quality assurance are introduced to Total Quality Management (TQM) concepts and applications as well as statistical testing methods. The students can then use these concepts and methods in industries utilizing auditing practices, quality controls, and inspection techniques.

## Non-Destructive Testing Technology (4WLD-NDT)

### Certificate of Technology

**Central Campus**

Students pursuing the non-destructive testing courses can earn the technical training necessary to begin working in the inspection field. San Jacinto College District offers the required classroom training in the basic five methods of MT, PT, VT, UT, and ET, required by the American Society of Non-Destructive Testing Society guidelines, SMT-TC-1A. Training in these areas prepares students for entry-level work in conventional non-destructive testing careers and provides additional knowledge for current inspectors or fabricators.

Non-Destructive Testing Technology
(3WLD-NDT)

Associate of Applied Science Degree
Central Campus
This program is designed to offer students entry-level skills in quality assurance/quality control of welded and metal products. Students may make this degree relevant to such industries as petrochemical construction and/or maintenance, nuclear construction, machining and metal working, underwater construction technologies, and aviation maintenance. Training in this program conforms to the American Society of Non-Destructive Testing Guidelines, SNT-TC-1A.

*Courses which satisfy this requirement are listed in the Humanities and Fine Arts, and Social and Behavioral Sciences sections of the Transfer Core Curriculum.

Nursing
San Jacinto College offers three associate of applied science degree programs in nursing that qualifies the graduate to make application to the National Council Licensure Examination for Registered Nurse (NCLEX-RN). The associate degree nursing (ADN) programs are:

Approved by:
Texas Board of Nursing (BON) - The contact information is: Texas Board of Nursing 333 Guadalupe #3-460, Austin, Texas 78701. Office: (512) 305-7400. Fax: (512) 305-7401

and, Accredited by:
The Accreditation Commission for Education in Nursing (ACEN) - the contact information is: ACEN, 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326. Office: 404.975.5000. Fax: 404-975-5020.

The programs are:

• Generic ADN program, offered on the Central and North Campuses, is a five semester program designed for the novice in health care aspiring to become a registered nurse. The North Campus serves as an extension site to the Central Campus ADN program.

• Transition to RN program, also offered on the Central Campus, designed for LVNs and Paramedics who aspire to become a registered nurse. The program is four semesters.

• LVN/Paramedic to ADN Mobility program, offered on the South Campus, is designed for the work-experienced LVN and Paramedic whose goal is to become a registered nurse. The program is three semesters. The applicant must present documentation of three years recent employment in the clinical health care setting with a minimum of 1000 hours within one calendar year.

• In addition to the associate degree nursing programs, the North and South campuses offer vocational nursing programs. Successful completion of course work in this program qualifies students to make application to the Texas Board of Nursing to take the National Council Licensure Examination for Practical Nurse (NCLEX-PN) to become a Licensed Vocational Nurse (LVN).

Generic Associate Degree Nursing, Central Campus
A generic student is a novice in health care generally does not have any formal nursing education. Successful completion of the generic ADN program by these students will qualify graduates to make application for the National Council Licensure Examination Registered Nurse (NCLEX-RN).

Students applying for admission to the Generic ADN program must submit the following items:
1) Application for Admission to San Jacinto College via our website at http://sanjac.edu/apply (provided online).

2) Completion of the Associate Degree Nursing Program Application (provided online) during application period.

3) Application Periods.
The ADN program accepts applicants twice a year. Associate Degree Nursing Program Application can be obtained at www.sanjac.edu/nursing during the following application periods.

   Fall Application Period: April 1st – June 1st
   Spring Application Period: To be announced

Students are strongly encouraged to contact a Counselor or Educational Planner in the Educational Planning & Counseling Center to assist with the San Jacinto College and ADN Admissions process. Please call (281) 998-6150, ext. 1014 or ext. 2317 to schedule an appointment.

4) Selection Criteria.
Students must apply for admission to the Associate Degree Nursing Program by submitting an Associate Degree Nursing Program application and packet with ALL required official documents at the same time to the ADN Office no later than the end of the application period.

Students who apply for admission to the Associate Degree Nursing program will be selected on the basis of the highest scores on the Admission Scoring Rubric. The rubric consists of points given for the grades obtained on prerequisite courses (see program specific prerequisites below), HESI A2 results, overall GPA, and the completed admission packet. Meeting minimum entry requirements does not guarantee program admission.

5) Code of Conduct.
All students admitted to the ADN Program are expected to maintain the highest personal and profession standards of conduct, in class and in clinical, in accordance with College policies and procedures, the College Student Handbook, the ADN Department Student Handbook and clinical facility policies and procedures, which are used as extended campus sites. Any information indicating that such standards are not adhered to is subject to review by the Department Chair and/or members of the Nursing department faculty, and may result in a recommendation to the College for dismissal from the program.

6) Official Transcripts must be submitted with the application packet.
(a) College transcripts – Applicants must have official transcripts from all colleges previously attended mailed directly to the Central Campus Office of Enrollment Services. Transcripts should be requested as soon as possible. Do not wait until the application period beginning dates of either April 1 or September 1 to request transcripts. All courses completed outside the San Jacinto College District must be evaluated by enrollment services.

(b) A minimum cumulative GPA of 2.5 is required for all applicants.

(c) Submit all official transcripts sealed from other colleges, including San Jacinto College transcripts, with ADN application.

Note: To insure accuracy, identify all names used in attending prior institutions that differ from the name submitted on the ADN Program Request Form.

7) HESI A2 Admission Test.
Applicants seeking admission must take an official Nursing Admission Assessment Exam (HESI A2). A composite score of 75 percent and a score of 75 percent in EACH section of Reading Comprehension, Grammar, Vocabulary, Anatomy & Physiology, Biology and Math is required. The Learning Styles section is required, but will not be used in determining admissions. Submit all HESI A2 admission test scores with ADN application. Official test scores should be requested as soon as possible. Please visit http://www.sanjac.edu/node/6651 (Testing Center - HESI website) for test dates on Central Campus.

8) A Criminal Background Check and Drug Screening are required prior to enrolling in the Associate Degree Nursing Program, and is part of the application process. They must be completed by the company designated by the ADN program. Receipts for the Criminal Background Check and Drug Screening must be submitted with the application.

Criminal Background Check You will need to go to www.precheck.com, click on ‘Student Check’ on the right, click on ‘Order Student Background Check’ (above and to the left of ‘Student Check’), under School, select San Jacinto College Central – Nursing, under Program, select ‘Nursing’, click ‘Submit’. A Criminal Background check is only good for one year.

   (a) Applicants with a CLEAR Criminal Background Check will be considered for admission.

   (b) Applicants whose Criminal Background Check is NOT CLEAR will have to submit a Petition For Declaratory Order to the Texas Board of Nursing for evaluation. If the applicant is deemed eligible to take the NCLEX-RN, the Board will issue the applicant a statement of eligibility. The original statement must be submitted to the Associate Degree Department Chair. Please visit http://www.bon.texas.gov/olv/pdfs/DOapp.pdf for more information.

   (c) An applicant whose Criminal Background Check is not clear and does NOT receive a statement of eligibility from the Board will not be allowed to enroll in the ADN Program.

Drug Screening must be completed during application period, noted above. The applicant must go to Deer Park Family Clinic for your screening. The address is 2910 Center Street, Deer Park, Texas; phone number: 281-479-5941. A drug screening must be repeated with each application submission.
(a) Applicants with a negative drug screening will be considered for admission.

(b) Applicants with a POSITIVE drug screening: The Company will attempt to reconcile results with the applicant’s Health Care Provider.

(c) Applicants with a positive drug screening who are NOT reconciled will not be allowed to enroll in the ADN Program.

9) CPR Card and Immunization documentation must be submitted with ADN application.

In order for your ADN application to be accepted, you must have completed a minimum of:

- CPR card from the American Heart Association Healthcare Provider (online courses are not accepted)
- Varicella shot #2 or titer
- Hepatitis A shot #1 or #2
- Hepatitis B shot #3 or titer
- or TWINRIX shot #3
- Measles, Mumps and Rubella (MMR) #2 or titer
- Tdap (administered 2005 or later)
- Current Flu vaccine
- TB Skin Test (within last 12 months)
- Chest X-Ray Results (If applicable)

The Texas Administrative Code Rule 97.64 states that enrolled students may not participate in coursework activities involving direct patient contact until the full vaccination series has been administered.

Titers for MMR, Varicella, Hepatitis A, and Hepatitis B are required to be on file in the student’s record prior to the end of the first semester.

10) Health – a Physical Exam is required.

Evidence of physical and emotional fitness upon admission and throughout the program is expected and is subject to review by the Associate Degree Nursing Department and medical opinion, or policy of hospitals/agencies which are used as extended campus sites for assigned educational experience.

A physical examination must be passed prior to entry into the ADN Program after a student has been selected and accepted. Physical exams may be scheduled with a private physician utilizing the forms issued by the Associate Degree Nursing Program upon acceptance. The examination must demonstrate that the student is physically fit to perform full duty and be free from communicable diseases.

Verification of Workforce Competencies

Credential Exam: NCLEX-RN

*Students must satisfactorily complete BIOL 2401, BIOL 2402, and BIOL 2420 or BIOL 2421, and ENGL 1301, and MATH 1314 or MATH 1333 prior to enrolling in any nursing course. College Preparatory courses which have numbers beginning with 0 do not apply toward the Associate Degree.

*Biology courses must be taken within the last five years with a passing grade no less than "C". (Any RNSG courses must have been taken within the last two years with a passing grade no less than "C").

**Courses which satisfy this requirement are listed in the Humanities and Fine Arts section of the Transfer Core Curriculum.

Note: Course outline is representative of Fall entry only. Adjustments will be made for Spring entry.

ASSOCIATE DEGREE NURSING, TRANSITION

Central Campus

The associate degree nursing (ADN) transition to RN (LVN-RN and paramedic to RN specialty) Program is designed for the licensed vocational nurse or paramedic applicant who desires to continue their education in health care to become professional nurses. Successful completion of the Transition Program by these students will qualify them to make application for the National Council Licensure Examination-Registered Nurse (NCLEX-RN).

Students applying for admission to the ADN Transition Program must submit the following items:

1) Application for Admission to San Jacinto College via our website at http://sanjac.edu/apply (provided online).

2). Completion of the Associate Degree Nursing Program Application (provided online) during application period.

3) Application Periods.
The ADN Program accepts applicants twice a year. Associate degree nursing program application can be obtained at www.sanjac.edu/nursing during the following application periods.

Fall Application Period: April 1st – June 1st
Spring Application Period: September 1st – November 1st

Students are strongly encouraged to contact a counselor or educational planner in the Educational Planning & Counseling Center to assist with the San Jacinto College and ADN admissions process. Please call (281) 998-6150 ext. 1014 to schedule an appointment.

4) Selection Criteria:

Students must apply for admission to the associate degree nursing program by submitting an associate degree nursing program application and packet with ALL required official documents at the same time to the ADN Office no later than the end of the application period.

Students who apply for admission to the associate degree nursing program will be selected on the basis of the highest scores on the admission scoring rubric. The rubric consists of points given for the grades obtained on prerequisite courses (see program specific prerequisites below), HESI A2 results, overall GPA, and the completed admission packet. Meeting minimum entry requirements does not guarantee program admission.

5) Code of conduct: All students admitted to the ADN Program are expected to maintain the highest personal and profession standards of conduct, in class and in clinical, in accordance with College policies and procedures, the College Student Handbook, the ADN Department Student Handbook and clinical facility policies and procedures which are used as extended campus sites. Any information indicating that such standards are not adhered to is subject to review by the department chair and/or members of the Nursing department faculty, and may result in a recommendation to the College for dismissal from the program.

6) Official Transcripts must be submitted with the application packet.

(a) College transcripts – Applicants must have official transcripts from all colleges previously attended mailed directly to the Central Campus Office of Enrollment Services. Transcripts should be requested as soon as possible. Do not wait until the application period beginning dates of either April 1st or September 1st to request transcripts. All courses completed outside the San Jacinto College District must be evaluated by enrollment services.

(b) A minimum cumulative GPA of 2.5 is required for all applicants.

(c) Also, submit all official transcripts sealed from other colleges, including San Jacinto College transcripts, with ADN application.

Note: To insure accuracy, identify all names used in attending prior institutions that differ from the name submitted on the ADN Program Request Form.
7) LVN Licensure-EMT/Paramedic Certification. Applicants applying to the ADN Transition Program must bring their current Texas licenses/certificates. The LVN applicant to the Transition to RN Program must have a current Texas License for Practice as a Vocational Nurse. The EMT/paramedic applicant to the paramedic to RN specialty program must have a current EMT/paramedic Certificate from the Texas Department of State Health Services. The applicant must attach a copy of licensure/certificate to the ADN application packet.

8) HESI A2 Admission Test. Applicants seeking admission must take an official Nursing Admission Exam (HESI A2). A composite score of 75 percent and a score of 75 percent in EACH section of reading comprehension, grammar, vocabulary, anatomy and physiology, biology and math is required. The Learning Styles section is required, but will not be used in determining admissions. Submit all HESI A2 admission test scores with ADN application. Official test scores should be requested as soon as possible. Please visit http://www.sanjac.edu/node/6651 (Testing Center - HESI website) for test dates on Central Campus.

9) A Criminal Background Check and Drug Screening are required prior to enrolling the associate degree nursing program, and is part of the application process. They must be completed by the company designated by the ADN program. Receipts for the criminal background check and drug screening must be submitted with the application.

For the criminal background check, you will need to go to www.precheck.com, click on ‘Student Check’ on the right, click on ‘Order Student Background Check’ (above and to the left of ‘Student Check’), under School, select San Jacinto College Central-Nursing, under Program, select ‘Nursing’, click ‘Submit’. A Criminal Background check is only good for one year.

(a) Applicants with a CLEAR Criminal Background Check will be considered for admission.

(b) Applicants whose criminal background check is NOT CLEAR will have to submit a Petition For Declaratory Order to the Texas Board of Nursing for evaluation. If the applicant is deemed eligible to take the NCLEX-RN, the Board will issue the applicant a statement of eligibility. The original statement must be submitted to the associate degree department chair. Please visit http://www.bon.texas.gov/olv/pdfs/DOapp.pdf for more information.

(c) An applicant whose criminal background check is not clear and does NOT receive a statement of eligibility from the Board will not be allowed to enroll in the ADN Program.

Drug screening must be completed during application period, noted above. The applicant must go to Deer Park Family Clinic for your screening. The address is 2910 Center Street, Deer Park, Texas; phone number: 281-479-5941. A drug screening must be repeated with each application submission.

(a) Applicants with a negative drug screening will be considered for admission.

(b) Applicants with a POSITIVE drug screening: The Company will attempt to reconcile results with the applicant’s Health Care Provider.

(c) Applicants with a positive drug screening who are NOT reconciled will not be allowed to enroll in the ADN Program.

10) CPR Card and Immunization documentation must be submitted with ADN application.

In order for your application to be accepted, you must have completed a minimum of:

- CPR card from the American Heart Association Healthcare Provider (online courses are not accepted)
- Varicella shot #2 or titer
- Hepatitis A shot #1 or #2
- Hepatitis B shot #3 or titer or
  - TWINRIX shot #3
- Measles, Mumps and Rubella (MMR) #2 or titer
- Tdap (administered 2005 or later)
- Current Flu vaccine
- TB Skin Test (within last 12 months)
- Chest X-Ray Results (If applicable)

The Texas Administrative Code Rule 97.64 states that enrolled students may not participate in coursework activities involving direct patient contact until the full vaccination series has been administered.

Titers for MMR, Varicella, Hepatitis A, and Hepatitis B are required to be on file in the student’s record prior to the end of the first semester.

11) Health – a Physical Exam is required

Evidence of physical and emotional fitness upon admission and throughout the program is expected and is subject to review by the associate degree nursing department and medical opinion, or policy of hospitals/agencies which are used as extended campus sites for assigned educational experience.

A physical examination must be passed prior to entry into the ADN Program after a student has been selected and accepted. Physical exams may be scheduled with a private physician utilizing the forms issued by the associate degree nursing program upon acceptance. The examination must demonstrate that the student is physically fit to perform full duty and be free from communicable diseases.

**Verification of Workforce Competencies**

**Capstone Experience: RNSG 2121, Comprehensive Exit Exam, External Learning Experience RNSG 2263**

**Credential Exam: NCLEX-RN**

* Students must satisfactorily complete BIOL 2401, BIOL 2402, and BIOL 2420 or BIOL 2421, and ENGL 1301, and MATH 1314 or MATH 1333 prior to enrolling in any nursing course.

* Biology courses must be taken within the last five years with a passing grade no less than "C". All RNSG courses must have been taken within the last two years with a passing grade no less than "C".

**Paramedic applicants only. Applicant needs special permission from department chair to take RNSG 1413 Foundations for Nursing Practice and RNSG 1215 Health Assessment courses.**

*Note: If you have two or more grades of “D” or “F” in any RNSG (Nursing) courses, you are ineligible to apply until two years have passed since your most recent failing grade.

**Courses which satisfy this requirement are listed in the Humanities and Fine Arts section of the Transfer Core Curriculum.**

*Note: The course outline is representative of Fall semester entry only Adjustments will be made for Spring semester entry.*
**Associate Degree Nursing, Mobility**

The ADN mobility program is a career mobility opportunity designed for LVNs and paramedics who desire to continue their education while maintaining employment. It is a program specifically designed to meet the unique learning needs of the LVN and paramedic. The nursing program is offered as a program that can be completed in three (3) terms. The ADN mobility program is approved by the Board of Nurse Examiners for the State of Texas, 333 Guadalupe #3-460, Austin, Texas 78701 and accredited by the National League of Nursing Accrediting Commission (NLNAC) (National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 850 Atlanta, Georgia 30326, 404-975-5000).

**Program Admission Criteria**

To be considered for acceptance into the ADN Program, students must meet the College’s general admission requirements, as well as the program admission criteria, and must be assessed for college readiness in the areas of reading, mathematics, and writing (See the Texas Success Initiative section of this catalog).

All prerequisite courses must be completed prior to applying to the ADN Program. Applicants are encouraged to complete all other prerequisite courses prior to seeking enrollment in RNSG 1301, RNSG 1215, and RNSG 1108.

A class is enrolled in January and August of each year. The application periods are Sept. 1–Oct. 15 for Spring admission and April 15 – June 1 for Fall admission.

Attendance at the information sessions is a requirement of all prospective students, in order to make application to the nursing program.

The following documentation must be submitted to the South Campus nursing program director:

- Current Texas license to practice – Licensed Vocational Nurses must have a current Texas license. Paramedics must be Texas certified.

- All official transcripts (sealed) from previous colleges must have been submitted and evaluated by Enrollment Services prior to time of application. Applicant must have a minimum of a 2.5 GPA in all required prerequisite courses to be considered for admission.

- Current CPR card with Health Care Provider status. (LVN) or ACLS certified (paramedic).

In order for credit earned in a required biology course to be applicable to the ADN Mobility program, credit must have been earned within the past five years and the grade earned must have been a C or above. Credit earned in a required biology course exceeds the five-year stipulation if the credit was earned five or more years prior to the first term in which the student enrolls in the program. In order for credit earned in a required pre-nursing course (RNSG) to be applicable to the ADN Mobility program, credit must have been earned within the past two years and the grade earned must have been a C or above. Credit earned in a required pre-nursing course exceeds the two-year stipulation if the credit was earned two or more years prior to the first term in which the student enrolls in the program.

There are a limited number of student spaces; therefore, students are admitted on a competitive basis. Students who apply for admission to the department of nursing will be selected on the basis of grade point average. The student must maintain an overall grade point average of 2.5 or above and earn at least 24 credit hours at San Jacinto College District in order to graduate from the LVN/paramedic–ADN Mobility program with an Associate of Applied Science in Nursing. Students must also complete an Admission Assessment Exam (A2) and achieve percentage scores in each category as determined by the curriculum committee in the LVN/paramedic to ADN Mobility program. Prospective students can only sit for the HESI Exam (A2) after required prerequisites have been completed. In addition, the HESI can only be taken at San Jacinto College-South Campus. Students are allowed to take the exam two (2) times per enrollment semester. All prospective students are required to have a criminal background check completed prior to consideration for admission. Any student who has been convicted of misdemeanors (other than minor traffic violations), felonies will not be admitted to the program. Random urine drug screens may be required during the program. Positive drug screens will be cause for dismissal from the program. Students may petition to the department for further guidance regarding criminal background checks or urine drug screening test.

Effective Jan. 1, 1996, a person who has been convicted of a felony that relates to the duties and responsibilities of a licensed registered nurse may be disqualified from obtaining licensure as a licensed registered nurse. (213.28 Board of Nurse Examiners for the State of Texas; Rules and Regulations, Sept. 2004.) For further inquiry, the applicant addresses these issues directly to the Texas Board of Nursing.

Reasons for automatic denial for admissions:

a. Any two grades of a “D” or below in RNSG courses within the past two (2) years.

b. Any two grades of a “D” or below in Biology courses within the past five (5) years.

***Grades of “IP”, “NG”, “FX”, etc. will be considered as failures.

***Grades of a “W” will not count as a failure; however for every two (2) grades of “W” one point will be deducted from your admission consideration.
Vocational Nursing (VN)

The vocational nursing curriculum includes a combination of class lectures, nursing skills training, and clinical experience in a variety of health care settings. The program is approved by the Texas Education Agency and the Texas Board of Nursing. Upon successful completion of the program, graduates may apply to take the State Board Examination. Those students who pass this examination are granted a license by the Texas Board of Nursing to practice as a licensed vocational nurse.

Applicants for the program must meet the requirements for general admission to the College and must also meet the following specific requirements:

- Be a high school graduate or pass the GED test.
- Pass the placement test with acceptable scores, and if required, complete needed College Preparatory courses.
- Have a GPA minimum of 2.25 on college-level coursework.
- Pass a physical examination.

Effective Jan. 1, 1996, a person who has been convicted of a felony that relates to the duties and responsibilities of a licensed vocational nurse may be disqualified from obtaining licensure as a licensed vocational nurse. (213.28 Board of Nurse Examiners for the State of Texas; Rules and Regulations, September 2004.) These issues are addressed directly to the Texas Board of Nursing by the applicant.

Students who apply for admission and who meet the stated requirements will be selected for admission on the basis of placement test scores, entrance exams, and grades on college-level coursework completed at San Jacinto College District or other accredited institutions of higher education. Applicants who are accepted for admission will be notified via email. Applicants who are not selected for admission to the vocational nursing program for a given term must re-apply for admission if they wish to be considered for admission during a subsequent term; applicants who are accepted for admission, but who do not enroll, must also re-apply.

For detailed information concerning admission requirements, deadlines for submitting applications and related documents, and requirements for completing the program, contact the department of vocational nursing.

The program is a full year of training, including 576 classroom and 880 laboratory/clinical hours. Students completing each of the courses specified in the program with grades of C or above are awarded a certificate of technology.
**Vocational Nursing (4NUR-LVN)**

**Certificate of Technology**

**North and South Campuses**

The prerequisite for enrolling in the first term is acceptance into the program.

---

**Occupational Health and Safety Technology**

Occupational Health & Safety Technology is a specialized branch of the health professions focusing on the environment of workers. Professionals in this field strive to find and eliminate conditions in the workplace that may result in occupational injury or disease. This is achieved through a process of anticipation, recognition, evaluation, and control of the various stresses that contribute to unsafe working environments.

The Occupational Health & Safety Technology program is multi-disciplinary in nature, providing students with relevant exposure to biological, chemical, physical, mathematical, and health sciences, as well as a thorough introduction to occupational health and safety concepts. Common occupational safety concerns deal with safety hazards involved with confined space entry, hazardous energy control, hazard communication, and compliance with safety standards, environmental protection, and other areas. Occupational safety personnel are expected to perform the following functions: identify and analyze accident and loss-producing conditions; develop accident prevention and loss control methods, procedures, and programs; communicate accidents and loss control data to individuals on a need-to-know basis; and measure and evaluate the effectiveness of accident and loss control systems.

The curriculum is modeled from guidelines of the American Board of Industrial Hygiene (ABIH) and the Board of Certified Safety Professionals (BCSP). The ABIH and BCSP began a jointly sponsored certification program through The Council on Certification of Health, Environmental, and Safety Technologist (CCHEST). CCHEST will administer the testing. Students who pass the certification examination, and pay the required fees, are authorized to use the title Occupational Health and Safety Technologist, and to use the initials OHST after their names. The students may complete curriculum at the upper-level universities leading toward Certified Safety Professional and/or Certified Industrial Hygienist.

**Program Entry**

OHST candidates (new or returning) must attend a mandatory OHST program orientation before being allowed to register for program related courses (does not apply to academic courses). Fall entry (August) orientations are held between April and May. Spring entry (January) orientations are held between November and December. No new students will be allowed to enter the OHST program during the summer. Please contact the Public Safety and Security Department for upcoming orientation dates at 281.998.6150, ext. 3686.

Paralegal

Paralegal (3PARA-LGL)

Associate of Applied Science Degree

North Campus

The paralegal curriculum at San Jacinto College District is designed to provide students with the knowledge and skills required to work under the general direction of attorneys to assist them in the completion of legal tasks. The ABA approved program provides knowledge and skills for employment in law firms, courts, utility companies, title companies, trusts and mortgage departments of banks, government agencies, industrial companies and other legal departments. A paralegal may not provide legal services directly to the public unless specifically authorized by law.

** Students must be TSI complete in order to graduate: Math level 9.

Personal Training

The purpose of the Personal Trainer program is to prepare graduates to work in the field of Personal Training. Individuals with these credentials are a vital component in the fitness industry. Graduates of the Personal Trainer program will have a strong background in the appropriate personal training anatomy and physiology, kinesiology, biomechanics, health and safety, and wellness/lifestyle changes areas. They will have industry knowledge in business practices, professional ethics, marketing, and proper record keeping.

Eligible for the International Sports Science Association (ISSA) Personal Trainer or other national credentialing exam.
Pharmacy Technician

Pharmacy technicians are a vital member of the health care team. Working under the supervision of the pharmacist, the pharmacy technician performs those tasks associated with the preparation and distribution of medication. Exciting career opportunities include, but are not limited to, positions in hospitals, retail pharmacies, nursing homes, compounding pharmacies, home health care, nuclear pharmacies, insurance companies, and public and government health agencies. The San Jacinto College’s pharmacy technician program is a 12-month certificate program designed to provide applicants with the skills and knowledge to pass the Pharmacy Technician Certification Examination (PTCE) as well as qualify for entry-level positions in a variety of pharmacy settings.

Program Overview
The pharmacy technician program at San Jacinto College is a nationally-accredited program under the guidelines of the American Society of Health-System Pharmacists (ASHP). The program curriculum requires students to complete 32 credit hours that total 832 contact hours which consists of a combination of lecture, on-campus laboratory and clinical training. The emphasis of the program is on training students to work in retail and hospital pharmacies. Upon completion of the program, students are awarded a certificate of technology. After graduation, students apply to take the Pharmacy Technician Certification Examination (PTCE). A pharmacy technician must pass the certification examination and register with the Texas State Board of Pharmacy (TSBP) to practice as a certified pharmacy technician (CPhT) in the state of Texas.

The program includes two clinical courses. Clinicals are unpaid positions in which students are supervised by the employees at the clinical site. The first clinical is a 160-contact hour, three-credit hour, external learning experience course that takes place in a retail pharmacy. The second clinical is a 160-contact hour, three-credit hour external learning experience course that takes place in a hospital pharmacy. Clinicals are scheduled according to the hours of the site and may vary among day, evening and night shifts. We cannot guarantee any specific site, but every effort will be made to accommodate the student. Students are responsible for their own transportation to and from clinical sites.

Program Admission Procedures
The purpose of this admissions process is to provide information and access to the resources that will lead to student success in the program.

Depending upon the campus, the pharmacy technician program accepts students twice a year; the Fall semester for day students and high school dual credit students (Dual Credit program at North Campus only) and the Spring semester for evening students.

Application periods are May 1 to July 31 for the Fall semester, and November 1 to January 15 for the Spring semester.

Once the deadline for applications has passed, all completed files will be reviewed and processed.

Students on Academic Probation or Suspension do not qualify for admission.

- Computer proficiency is recommended for the certificate program. Students who do not have computer proficiency are encouraged to take BCIS 1305 or ITSC 1309.
- The orientation provides an opportunity to:
  - Review applicant assessment *
  - Discuss the program and career opportunities
  - Determine educational plan
- Receive instructions for registration
- Applicants demonstrating a need for additional coursework to equip them for success in the Pharmacy Technician program must successfully complete suggested course(s) prior to admission to the program.
- Academic background will be reviewed.

Selection Criteria
Acceptance to the pharmacy technician program is based on open enrollment, first-come, first-serve basis. Applicants desiring admission must meet with the program director for program advisement and review of admission requirements. If the applicant meets all basic requirements, the applicant is accepted for admission. When the program capacity is reached, qualified applicants are placed on a waiting list in the order their application was received, and they are offered admission during the next admission cycle.

Program Admission Requirements
- Applicants for the program must meet the College’s general admission requirements, as well as the program admission criteria.
- SAN JACINTO COLLEGE GENERAL ADMISSION REQUIREMENTS – the following must be completed and submitted to the Office of Enrollment Services prior to applying to the program.
  - Complete the application for admission to San Jacinto College through Enrollment Services.
  - Submit official transcripts high school (diploma, GED or equivalent) and all previous college transcripts from accredited colleges/universities.
  - Complete Placement Test with a skill level of 6 or better on Math, Reading, and Writing.
Technical Programs

Pharmacy Technician Program Admission
Requirements – the following must be completed and submitted to the office of the pharmacy technician program by the application deadline.

Program Application

- Criminal Background Check: individuals with a history of misdemeanors and felony convictions do not qualify for admission into the program.
- Urine drug screen
- Must be negative in order to qualify for admission into the program.
- Obtain Pharmacy Technician Trainee License by registering as a Pharmacy Technician Trainee with the Texas State Board of Pharmacy. This process requires fingerprinting.

Copy of Immunization Records to include:

- Tetanus-diphtheria (Td): proof or one dose less than 10 years old.
- TB Sputum Test (TB): If you have had a previous positive TB skin test or the BCG (TB) vaccination then you must have a Chest X-Ray performed. TB Skin Tests & Chest X-Ray are good for one year.
- Measles, Mumps, and Rubella (MMR): proof of two doses. If previously vaccinated and shot records are lost or unavailable, immunity can be validated with a titer level (blood) confirmation.
- Varicella (chickenpox): proof of two doses or written validated disease history by parent or physician. If previously vaccinated and shot records are lost or unavailable, immunity can be validated with a titer level (blood) confirmation.
- Hepatitis B: proof of three doses. If previously vaccinated and shot records lost or unavailable, immunity can be validated with a titer level (blood) confirmation.
- Please note that the series takes four to six months to complete. *
- Influenza (Flu) Vaccine: flu vaccines are good for one year.

**Certificate of Technology Total**                          32

Capstone Experience: PHRA 2360

Note: Students must pass each course listed in the certificate for Pharmacy Technician with a grade of C or higher to be eligible to receive a certificate of technology.
Physical Therapist Assistant

Physical therapist assistants (PTAs) work under the direction and supervision of physical therapists in a variety of settings. Opportunities include, but are not limited to, out-patient clinics, hospitals, long-term care facilities, pediatric centers, schools and home health agencies. PTAs provide services for patients which help decrease pain, improve mobility, restore function and minimize disabilities.

The PTA program at San Jacinto College South Campus is a nationally-accredited program under the guidelines of The Commission on Accreditation in Physical Therapy Education (111 North Fairfax St., Alexandria, VA 22314-1488; (703) 706-3245). The program is a total of 72 credit hours and the student is awarded an A.A.S. degree upon completion of the program. After graduation, the student applies to take The National Physical Therapist Assistant Examination. Individuals must pass the licensure exam to practice as a PTA in most states including Texas.

PTA students must earn an average of 75 or above in the PTHA classes and a “C” or better in all courses in the PTA curriculum. Additionally, the student must maintain an overall grade point average of at least 2.0 in order to graduate from the PTA program.

Information sessions will be held on a monthly basis at San Jacinto College South (13735 Beamer Road, Houston, TX 77089 in the S.R. (Buddy) Jones, Jr. Vocational/Technical Building. Please see our website to confirm times, dates and location.

ADMISSION CRITERIA

- All application forms and further details are available on-line at www.sanjac.edu/physical-therapy.
- Acceptance into the PTA program is competitive with enrollment limited to 24 students. Applicants must meet the College’s general admission requirements. Complete applications must be submitted by the first Friday in March for enrollment in the following Fall semester. Admission to the program is based on a points system. A breakdown of the point system can be found on the website. The top 50 or so students will be eligible for an interview and students with the greatest number of points will be offered acceptance.
- Applicants must complete a total of at least 40 hours of observation in physical therapy from at least two settings and have three letters of recommendation.
- Applicants are not required to complete prerequisite courses in order to apply to the program; however, they are encouraged to take the courses identified with (****) prior to entering the PTA program.
- Meeting the criteria does not guarantee admission to the PTA program. Applications for students not accepted into the program will be held as in-active for two years. If a student wishes to re-apply during those two years, a letter must be sent or emailed to the PTA department requesting that their file be re-activated and a new application form must be completed and submitted to the department.
- Accepted students are required to have a criminal background and urine drug screen prior to admission into the program. Any student who has been convicted of misdemeanors (other than minor traffic violations), felonies, or has a positive drug screen will be contacted immediately for further instructions.

Steps to Complete Admission:

1. Apply for admission into San Jacinto College. Send official transcripts from colleges/universities other than San Jacinto to the registrar’s office at San Jacinto South. Ask for a transcript evaluation. Send all non-official transcripts to the PTA department.

2. Obtain necessary application forms on-line at www.sanjac.edu/physical-therapy.

3. Complete PTA Program application form and submit any time after the second Monday in January. A file for the applicant will then be initiated. Documents associated with steps 4 & 5 may then be submitted. All documents must be submitted by the first Friday in March.

4. Submit documentation of observation hours. A total of 40 hours is required from at least two of the following settings: out-patient, in-patient rehabilitation, acute care hospital, pediatrics or home health. An in-patient or acute hospital setting is strongly recommended as one of the options.

5. Submit three forms of recommendation. It is strongly suggested that one of the letters be from a PT or PTA.

6. If eligible, complete interview.

7. If accepted, complete criminal background and drug screen.

Cost
The cost of the PTA program is the same for any student at San Jacinto College with additional fees for labs, insurance, background check, drug screen, immunizations, CPR certification, and additional travel expenses for clinical rotations. Uniforms may need to be purchased for some clinical rotations.

**Process Technology**

The process technology department is a direct link to the largest industry in the greater Houston area and the Texas Gulf Coast region. In the past very little formal training was required prior to taking a job in the chemical process industry. However, companies in the Houston area now require more education for their entry-level technicians and are looking to community college graduates to meet those needs.

Students train in state-of-the-art process laboratory facilities similar to area refining and chemical plant environments. The College facility was built in cooperation with area petrochemical companies. San Jacinto Community College District works closely with industry as a member of the Gulf Coast Process Technology Alliance to maintain a curricula reflecting current technology standards.

Completion of the process technology curriculum can provide students with the technical skills required for entry-level positions as process technicians in petrochemical and related industries.

A certificate in process technology is still accepted by most of industry, however, several industries have indicated they will hire only graduates with the associate of applied science degree. Future trends indicate that most of the petrochemical industry technicians will be required to have an A.A.S. degree. Students who earn qualifications to be in the chemical lab technician specialty A.A.S. degree program have the advantage of earning qualifications for being hired into either the operations division or laboratory department of a process plant.

Occupational Certificate Total 15

Capstone Experience: RELE 1300

A minimum of 12 semester hours (180 classroom hours) must be completed in specific core real estate courses. These core courses must be Principles of Real Estate I and II, Law of Agency, Real Estate Finance, Contract Forms and Addenda, and Law of Contracts.

Educational Requirements for Texas Real Estate Licensure: Requirements for licensure are subject to change by the Texas Real Estate Commission. Three semester credit hours are the equivalent of 45 clock or classroom hours. A real estate salesperson is required to complete a total of 18 semester (270 classroom) hours of education, by the end of their first year of licensure. Courses acceptable toward sales educational requirements are also acceptable for broker educational requirements.

To be licensed as a broker under the educational requirements after Jan. 1, 2012, 18 semester hours (270 classroom hours) of the 60 semester hours (900 classroom hours) must be in core real estate courses. An applicant must have taken a real estate brokerage class.

Also, at least four years active experiences in Texas as a licensed real estate salesperson are required.

For further information write or call: The Texas Real Estate Commission, P.O. Box 12188, Capitol Station, Austin, TX 78711; 512.465.3940.

Real Estate Advanced (5REAL)

Level II Certificate
All Campuses
The Level II certificate allows the student to complete all the program specific courses in real estate. This would be beneficial for a student that is interested in pursuing a broker's license or possible management opportunities in real estate. This will also help satisfy some continuing education requirements as well as completing a broader study in real estate. Achieving this certificate and completing the 15 credit hours of prescribed general education courses will allow the student to achieve the Real Estate Associates of Applied Science degree (AAS).

Real Estate (3REAL)

Associate of Applied Science Degree
All Campuses
This two-year program leading to an associate of applied science degree in Real Estate is for students who want to earn a two-year degree while preparing for jobs in real estate and for sales or broker licensure. Students pursuing a bachelor’s degree should see a counselor or the department chair prior to registration.

First Term Credit
RELE 1201 Principles of Real Estate I .............................................. 2
RELE 1211 Law of Contracts ......................................................... 2

*Courses which satisfy this requirement are listed in the Humanities and Fine Arts,
and Social and Behavioral Sciences sections of the Transfer Core Curriculum.

**Students must be Texas Success Initiative (TSI) complete in order to graduate:
Math level 9
Respiratory Care

*A criminal background check and/or drug screening is required for all health science students attending clinical courses, or practicum, and may be required prior to admission to the program.

The department of respiratory care offers an associate of applied science degree program. Graduates are qualified to apply to take the examination for entry-level certified respiratory therapist as well as the advanced Registered Respiratory Therapist examination administered by the National Board for Respiratory Care.

Due to the limited number of clinical spaces, students are admitted on a competitive basis. All candidates must be counseled by the department of respiratory care at San Jacinto College District.

Philosophy

The philosophy of the department of respiratory care adheres to the philosophy of San Jacinto Community College District. Respiratory care is the allied health discipline, which provides care through the use of diagnostic testing to patients with abnormalities of the cardiopulmonary systems. Respiratory therapists practice their specialty under the direction of licensed physicians and perform their duties in a variety of settings, including intensive care units, neonatal/pediatric special care units, general hospital wards, emergency/trauma units, extended care facilities and the home.

Due to the nature of the services provided, respiratory therapists must be able to apply knowledge gained through academic education to clinical problems and rationally care for the patient. Graduates of the programs offered by the department of respiratory care are prepared as contributing members of the health care team.

Objectives

Upon completion of the program offered by the department of respiratory care, the student should be able to:

1. Utilize patient care processes and scientific principles to provide respiratory care to patients in health care facilities.
2. Participate as a contributing member of the health care team.
3. Assume personal responsibility for continued learning in order to maintain professional competency and promote the advancement of the field of respiratory therapy.
4. Successfully complete the credentialing examinations administered by the National Board for Respiratory Care.

Program Admission Criteria

Students who apply for admission to the department of respiratory care will be selected on the basis of their coursework completed and their grade point average.

Applicants must complete 10 semester hours as specified below with at least a B average in the three courses and the grade in each of those courses must be a C or better.

- BIOL 2401 or BIOL 2402,
- ENGL 1301 or ENGL 1302,
- MATH 1314 or MATH 1333 or higher level math

Students must apply for admission to the department of respiratory care by submitting a formal application and all required official documents to the Office of Enrollment Services.

Applicants must meet all College general admission requirements. After acceptance into the program, an applicant must have a physical examination by a licensed physician, physician's assistant or nurse practitioner and documentation of updated immunizations. During the first semester in the program, the student will be required to have a drug screening. Respiratory care students must earn a grade of C or better in all respiratory care (RSPT) courses, science and mathematics courses, and must maintain an overall grade point average of at least 2.0 in order to graduate from the respiratory care program.

If the student earns a grade of D, W or F in a respiratory care course, the student will be required to repeat the course in which the unsatisfactory grade was earned and pass that course with a grade of C or better in order to progress in the program. A second earned grade of D, W or F in a respiratory care course will result in the student’s being dismissed from the program. To request readmission into the program, the student must submit a written petition to the Respiratory Care Admission Committee. If readmission is granted, the student must satisfy the readmission criteria specified by the Committee in order to continue in the program.

All students should take the required academic foundation courses in sequence along with professional coursework.

Applicants to the respiratory care program will be notified by mail or e-mail regarding their program admission status. Applicants who are not selected for admission to the Respiratory Care program may reapply. Applicants who are accepted for admission into the department of respiratory care, but who do not enroll, must reapply to be considered for admission at a later date.

A student currently on academic probation is ineligible to enroll in the Respiratory Care program.

Application Periods

Jan. 1 through June 1
Sept. 1 through Nov. 1

Classes begin each fall and spring term. For more information please contact the Respiratory Care Department at 281-998-6150, ext. 1864.

* Students desiring to obtain a baccalaureate degree should take MATH 1314 College Algebra.

** Courses which satisfy this requirement are listed in the Humanities and Fine Arts section of the Transfer Core Curriculum.

Note: Course outline is representative of fall entry only. Adjustments will be made for spring entry. For further information concerning respiratory care accreditation, write or call:

Surgical Technology

A criminal background check and drug screening is required for all health science students attending clinical courses, or practicum, and may be required prior to admission to the program.

The surgical technology program is accredited by the Commission for Accreditation for Allied Health Education Programs (CAAHEP) effective until 2015, in conjunction with the National Board of Surgical Technology and Surgical Assisting. Upon completion of the program, the student is granted a certificate of technology and is eligible to apply for the National Certification Examination given by the Association of Surgical Technologists.

The program curriculum is a balance of theoretical and technical courses with supervised clinical practicums at area hospitals, as well as the Texas Medical Center. The combination provides the student an opportunity for educational development and skill competency.

Applicants must meet the College's general admission requirements and successful completion of HPRS 1106 and HPRS 1171. Permission must be obtained from the department chair in order to enroll in HPRS 1106, Essentials of Medical Terminology and HPRS 1171, Medical Terminology, prerequisite courses. After acceptance into the program, an applicant must have a physical examination by a licensed physician (M.D., D.O.) and complete documentation of updated immunization, including the series of the Hepatitis B vaccine. All students must process through a criminal/drug background check.

Surgical technology students must earn a grade of C or above in all surgical technology courses and maintain an overall cumulative grade point average of at least 2.0 in order to graduate from the surgical technology program. In order for credit earned in a required biology course to be applicable to the Surgical Technology program, credit must have been earned within the past five years and the grade earned must have been a C or above. Credit earned in a required biology course exceeds the five-year stipulation if the credit was earned five or more years prior to the first term in which the student enrolls into the program.

Students earning a grade of D, W or F in any surgical technology course will be required to repeat the surgical technology course in which the unsatisfactory grade was earned and pass the course with a grade of C or better to progress in the program.

In subsequent terms, should a second grade of D, W or F be earned in any surgical technology course, even though the student may have repeated the course in which the first grade of D, W or F was earned and received, the student will be dismissed from the surgical technology program.
Students are required to purchase uniforms and accessories specified by the Department of Surgical Technology. Each student is responsible for his or her own transportation to the clinical areas. Each student who registers for surgical technology courses is required to purchase student liability insurance.

**Philosophy**

The philosophy of the Department of Surgical Technology parallels the philosophy of the San Jacinto Community College District. Surgical technologists are an integral part of the surgical team who work closely with nurses and surgeons to provide the best possible care for the patient during the intraoperative phase of a surgical procedure. Surgical technologists are responsible for assisting during surgery by passing instruments and other equipment to the surgeon in a prescribed manner and assisting to maintain sterility throughout the entire procedure.

Upon completion of the program the student receives a certificate of technology and is eligible to write the National Certification Examination to become a certified surgical technologist.

*Courses which satisfy this requirement are listed in the Humanities and Fine Arts section of the Transfer Core Curriculum.*
Welding Technology

Art-Welding (6WLD-ART)

Occupational Certificate
North Campus
First Term Credit
WLDG 1305 Art Metals ............................................................... 3
WLDG 1308 Metal Sculpture ....................................................... 3
WLDG 1528 Introduction to Shielded Metal Arc Welding (SMAW) ............................................................................. 5
WLDG 1530 Introduction to Gas Metal Tungsten Arc Welding (GTAW) ............................................................................. 5
Occupational Certificate Total  16
Capstone Course: WLDG 1530

Structural Welder (6WLD-STR)

Occupational Certificate
Central and North Campuses
The structure welder certificate provides students with entry-level skills for immediate employment. Courses focus on knowledge and skills required for Shielded Metal Arc Welding (SMAW) to prepare students to pass many structural welding tests as required by industry, fabrication companies, and shipyards. These courses may also be applied toward the stick pipe welding occupational certificate, the combination welder certificate of technology and the Associate of Applied Science in Welding Technology.

First Term Credit
WLDG 1528 Introduction to Shielded Metal Arc Welding (SMAW) ............................................................................. 5
WLDG 2543 Advanced Shielded Metal Arc Welding (SMAW) .. 5
WLDG 2580 Cooperative Education Welding or WLDG 2553 Advanced Pipe Welding or WLDG 1534 Introduction to Gas Tungsten Arc Welding (GTAW) or WLDG 2506 Intermediate Pipe Welding ...... 5
Occupational Certificate Total 15
External Field Experience: WLDG 2580
Capstone Experience: WLDG 2506 or WLDG 2553 or WLDG 1534

Combination Welder (4WLD-C)

Certificate of Technology
Central and North Campuses
The Combination Welder Certificate of Technology is designed to give intermediate and advanced welding experience to those students interested in taking Shielded Metal Arc (SMAW) Welding and Gas Tungsten Arc (GTAW) Welding on plate and pipe to meet certification tests required by industry. Instruction is provided on plate and pipe welding positions on carbon steel.

First Term Credit
WLDG 1528 Introduction to Shielded Metal Arc Welding (SMAW) ............................................................................. 5
WLDG 2506 Intermediate Pipe Welding ...................................... 5
WLDG 2543 Advanced Shielded Metal Arc Welding (SMAW) ... 5
WLDG 2553 Advanced Pipe Welding ............................................ 5
WLDG 2551 Advanced Gas Tungsten Arc (GTAW) Welding ...... 5
Certificate of Technology Total 30
Capstone Experience: WLDG 2551

Stick Pipe Welder (6WLD-STI)

Occupational Certificate
Central and North Campuses
This series of courses introduces the student to various aspects within the Shielded Metal Arc Welding (SMAW) of pipe according to common welding codes and procedures. Upon completion of this certificate, student should be successful at completing SMAW pipe weld tests as required by industry and fabrication companies. These courses may also be applied toward the combination pipe welder certificate of technology, and the Associate of Applied Science in Welding Technology.

First Term Credit
WLDG 1528 Introduction to Shielded Metal Arc Welding (SMAW) ............................................................................. 5
WLDG 2506 Intermediate Pipe Welding ...................................... 5
WLDG 2543 Advanced Shielded Metal Arc Welding (SMAW) ... 5
WLDG 2553 Advanced Pipe Welding ............................................ 5
Occupational Certificate Total 20
Capstone Experience: WLDG 2553
### Gas Shielded Welding (4WLD-GAS)

**Certificate of Technology**

**Central and North Campuses**

The Gas Shielded Welding Certificate of Technology is designed to give entry-level welding experience to those students interested in taking Gas Metal Arc (GMAW) and Gas Tungsten Arc (GTAW) plate and pipe welding certification tests as required by industry. Instruction is provided on plate and pipe welding positions on carbon steel.

### Welding Technology (3WLD)

**Associate of Applied Science Degree**

**Central and North Campuses**

The growing demand for qualified welders has necessitated the availability of a curriculum designed to meet the needs of the welding industry. Students graduating from the program will be skillful and have a good understanding of the related and technical information associated with welding. Graduates should be qualified to pass the entry-level certification tests as required by industry. Students completing the program outlined below will earn an associate of applied science degree.

The curriculum focuses on the introductory, advanced and high-technology welding skills required in manufacturing, industry and in research.

Truck Driving (Commercial)

Central Campus
Continuing Education

Admission Requirements
Applicants for the San Jacinto College commercial truck driving courses must:

- Be at least 18 years of age and pass a mandatory drug test.
- Be in reasonably good physical condition and have no serious physical handicaps. (For guidelines, please read the Federal Motor Carrier Safety Regulations and Noise Emission Requirements, Chapter III–Federal Highway Administration, Department of Transportation–Subpart E–Physical Qualifications and Examinations–391.41)
- If born outside the U.S. or a graduate of a high school outside the U.S., all applicants must be able to provide adequate proof of competency in English or pass the English Proficiency Test administered by the Testing Center at the College. For appointments with the Testing Center, call 281.476.2025.
- If enrolling with an F-1 Visa, must be certified for English competency and be approved by the International Student Advisor, located in room 156 in the Administration Building. For appointments with the Advisor, call 281.476.1840.
- Have a valid Texas driver’s license.
- Have a valid Social Security number.

Course Information
Day classes meet Monday through Thursday from 7 a.m. until 6 p.m. for six weeks. Weekend classes meet Saturdays and Sundays from 7 a.m. until 6 p.m. for 12 weeks. Each student will log approximately 800 miles of actual behind-the-wheel driving, pulling empty and loaded trailers. Total truck maintenance and safety, Department of Transportation Federal Motor Carrier Safety Regulations, and driving courtesy are covered. The commercial truck driving curriculum is designed to provide basic training in preparation for employment as a professional truck driver. A continuing education six-hour defensive driving course is also included.

Upon successful completion of the prescribed course work, students receive an occupational certificate and a Department of Transportation certification. These non-credit courses are approved for Veterans Administration educational assistance. Job assistance is available to qualified students through the commercial truck driving department.

Registration and Fees
Registration is handled on a first-come, first-served basis. It is recommended that any interested students register early in order to guarantee a place in the class. Payment of the total cost of both courses is due upon registration. Students are asked to contact the department chair for the most recent costs. (Tuition, fees and contact hours are subject to change without notice.) For more information, call 281.476.1872.
