Session 1

Please provide a general description of the session: How many students did the tutor work with? What subject? How did the tutor determine what the student(s) was struggling with? What issues or challenges did the student(s) present?

Comments on Session: Did you find the session effective? Did the student(s) seem to grasp the material and leave with a better understanding? What strategies or techniques did the tutor employ? Did the techniques promote passive or active learning? Were the techniques successful – why or why not?

Discuss with your tutor (away from student): Did the tutor choose a certain tutoring technique to use with the student(s)? If so, what made them choose it? Were there any struggles/issues during the session? If so, how did the tutor overcome? Discuss any insights you may have had with your tutor.
