

NURSING - ASSOCIATE DEGREE NURSING (RN)

TECHNICAL

Degree/Certificate: Associate of Applied Science (6 terms)

If you have a compassionate, take-charge personality with a desire to make patients feel comforted in the face of illness, then a career in nursing may be the right career for you. As the population is quickly expanding and aging the need for quality health care is greater than ever, and professionals who can provide that care are in short supply. A nursing degree from San Jacinto College will change your life and help save the lives of others.

ADMISSION INFORMATION

Applications for entry into the Central Campus program are accepted each year in the fall and

spring. North Campus accepts applications in the fall only. For dates please see www.sanjac.edu/nursing.

The Central Campus also offers an evening hybrid program every two years (fall semesters/even years). It is 50 percent online and 50 percent face-to-face, and clinicals are held once or twice per week, any time of the day or night and any day of the week. Typically, evening courses on campus will begin at 5 p.m.

A generic nursing program prepares people with no professional nursing experience for entry into the field of nursing. The RN program is only offered to generic nursing students. It is four and a half semesters, the same length as a traditional generic nursing program.

CAREER OUTLOOK

As a nurse, the job opportunities are endless. Upon successful completion of the curriculum and passing of the NCLEX-RN, graduates are entering a field of infinite professional challenges. The registered nurse is seen as a vital member of the health care team and is responsible for coordinating the majority of the care related to the patient. As the first point of contact between the patient and physician, professional nurses encompass all levels of health and well-being.

The registered nurse can secure employment in:

- Hospitals and clinics
- Home health and community health settings
- Education
- Research and computer/technology

San Jacinto College has transfer agreements with universities so our graduates can pursue bachelor's degrees.
