Global Certified OHSAS 18001
Lead Auditor Training

This course provides the framework to learn the full range of auditing skills that help you become an advocate in your company’s effort to obtain maximum value from your commitment to OHSAS 18001. Occupational health and safety lead auditors assist an organization in maintaining an effective OH&S and meeting health and safety targets and objectives. Using health and safety methodology and tools, this OH&S lead auditor class helps your organization drive continuous improvement.

Who should attend:
- OH&S Program Coordinators
- OH&S Planners, Implementers and Team Members
- Trainers who want an effective method of explaining ISO 18001:2007 to employees

Prerequisites: A series of questions to be answered by the student and turned in prior to or at the beginning of the course is required to demonstrate understanding of OHSAS 18001 Standard.

LEARNING OBJECTIVES
- Perform audits based on ISO 19011 Standard
- Demonstrate an understanding OHSAS 18001
- Apply RABQSA Auditor Certification Handbook
- Link to Quality Management Principles
- Form an audit team
- Conduct an audit meeting
- Determine needed documentation and organize to the standard
- Classify, record and resolve nonconformities
- Implement preventative measures to avoid future nonconformities

Requirements for Successful Completion
There are two elements involved in the evaluation and examination for successful completion of participants in this course:
1. The continual evaluation of the student's attitudes, auditing capability, performance as team members when role-playing, and communication skills (performed independently by all instructors involved with the class).

2. A written examination, which covers the content of ISO 18001 and the application of audit principles and practices based on ISO 19011. 75% of the examination grade is based on questions that require short answer responses that test comprehension of the audit process and the application of ISO 18001, and the remainder of the examination grade is based on multiple choice and true/false questions.
