AAPC CERTIFIED CODER
40 HOUR BOOT CAMP

This 40 hour boot camp reviews primary coding rules and principles, along with a medical terminology section designed exclusively for coders. Coding exercises will be completed both in class and as homework exercises. You will learn how to master advanced coding issues, how to deal with modifiers, ancillary services, and a number of challenging coding scenarios. Includes the AAPC CPC Certification Exam which will be administered within 30 days of the last class day.

* AAPC Membership, Course Materials, & CPC Exam Included.

**Note: One year of coding experience required. Student must provide current editions of CPT, ICD-9-CM Vols I & II, HCPCS manuals, and a medical dictionary.
