MESSAGE FROM THE BOARD CHAIR

As we reflect on the past year, our Board is reminded of a quote from Marian Wright Edelman that reads, "Education is for improving the lives of others and for leaving your community and world better than you found it." This is exactly what we do at San Jacinto College. When our students succeed, our community is better for it. And at the end of the day, student success is our ultimate measure.

This was another remarkable year for San Jacinto College. Our students, faculty and staff have excelled in ways that are beyond our imagination, earning local, regional and national recognition. Our faculty and staff consistently show the commitment and dedication to our core values, always thinking outside of the box to improve the lives and the educational experience of our students. We are constantly in awe of the stories we hear, and we hope you are too.

As a Board, we remain committed to keeping college costs low and a higher education credential attainable for everyone who chooses San Jacinto College. We know there are many factors that influence an individual's decision to pursue a credential or degree, and we don't want to be a barrier. Many of the initiatives that our administration, faculty and staff have put into place are saving students millions of dollars, and are putting them on track to a great career. Careers that are right here in our region supporting our economy. In fact, a recent economic impact report commissioned by the College states that the total annual regional impact of San Jacinto College is $1.3 billion in added income and the College supports more than 13,000 jobs in the region.

Great things are happening at San Jacinto College, and we are thankful that each and every one of you are a part of our journey. Your continued support of our students, faculty and staff is appreciated and does not go unnoticed. We hope you enjoy the *2018 Report to the Community*.

Thank you.

Marie Flickinger
Chair, San Jacinto College Board of Trustees

MESSAGE FROM THE CHANCELLOR

This has been another outstanding year for San Jacinto College. I am truly honored and humbled to serve as Chancellor at this great institution. Each and every day I witness the work being done by our faculty and staff that is making a difference in the lives of our students. As I reflect on the past year, and look toward the future, I am reminded that our work is never done. We continue to find ways to help our students succeed.

One of the most significant events that took place this year is the reaccreditation process with our accrediting agency – The Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). This process occurs every 10 years, and is critical, as the College's accreditation assures our students and community of the quality and integrity of our institution and our programs. The College successfully completed the written report and an on-site visit by a peer review committee. I expect for the institutional reaccreditation to be reaffirmed on schedule in June 2019.

If you have driven by or visited any of our campuses, you've seen some changes! We are moving forward with construction of new facilities as a result of the 2015 bond. We expect to open the new Center for Energy, Petrochemical, and Technology in the fall; and will have four new facilities opening in spring 2020. Not to mention the many renovations occurring to buildings that are at least 30 years old. These renovations will create modern learning environments for our students. It will also meet the growth of our dual credit and early college high school students.

This year I witnessed multiple success stories of our students, faculty, and staff. From students performing research with four-year universities, to Dr. Rachel Garcia receiving the Governor's Outstanding Women in Texas Government Award, to our Phi Theta Kappa students receiving regional and international accolades, the honors keep going. I also put commencements into this category – it is amazing to see the wide variety of students walking across the stage! They have accomplished an important step in their higher educational and workforce training goals. They are San Jac Certified and we are so proud of them! What a wonderful celebration of success!

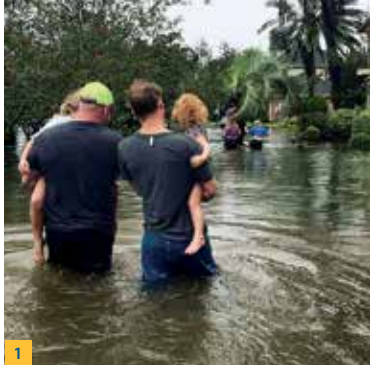
The College was recognized again by the Aspen Institute. After earning the Rising Star Award in 2017 as one of the top five community colleges in the nation, San Jacinto College is once again a top 10 finalist for the Aspen Prize for Community College Excellence; this recognition is out of more than 1,100 community colleges nationwide. What an honor for our College!

I know you will enjoy reading more about the success stories of our students, faculty, and staff in this year's *Report to the Community*. I am reminded every year of the tremendous support we receive, and for that I say thank you. I know we are making a difference in the lives of students, and your continued support is forever appreciated.

Best,

Brenda Hellyer, Ed.D.
Chancellor, San Jacinto College

2018 IN REVIEW



1

2

3

JANUARY

1 San Jacinto College Foundation receives $100,000 grant for Hurricane Harvey student aid from the Greater Houston Community Foundation.

San Jacinto College Baseball Head Coach Tom Arrington is selected to the NJCAA Hall of Fame.

FEBRUARY

2 Pasadena Chamber of Commerce selects San Jacinto College as its 2018 Business of the Year.

MARCH

Dr. Carla Garrett, San Jacinto College North Campus college preparatory writing professor, is the College's Minnie Stevens Piper Professor Award nominee and Faculty Excellence Award recipient.

APRIL

The Texas Workforce Commission (TWC) awards $382,548 to San Jacinto College to train new mariners and promote current mariners for 211 jobs in the industry.

3 The San Jacinto College South Campus Phi Theta Kappa (PTK) Alpha Gamma Zeta chapter receives accolades at the Texas regional and annual international PTK Catalyst Awards conferences.

MAY

For a second time, the Aspen Institute for Community College Excellence names San Jacinto College as one of its 10 finalists for the prestigious 2019 Aspen Prize for Community College Excellence.

Seven San Jacinto College softball players receive post-season honors.

The San Jacinto College Foundation hosts an "Experience" Gala that raises $240,000 for scholarships.

JUNE

The College hosts the national Shared Quarters Maritime Conference at the Maritime Campus.

The process technology student team captures gold for a second time at the 2018 North American Process Technology Alliance (NAPTA) Troubleshooting Competition.

4 San Jacinto College is one of nine schools selected to participate in Rice University's 2018-2019 OpenStax Institutional Partnership Program to further the College's efforts in providing open educational resources (OER) to save students money on textbook costs.

JULY

Marie Flickinger, San Jacinto College Board of Trustees Chair, is honored at the Latino Learning Center's Annual Humanitarian Awards in the Special Recognition for a Philanthropic Life category for her longtime support and advocacy of the South Belt community.

5 Dr. Brenda Jones, San Jacinto College South Campus provost, is named the Future Business Leaders of America (FBLA) and Phi Beta Lambda (PBL) Business Honor Society's 2018 Business Person of the Year.

San Jacinto College partners with E.I. DuPont de Nemours and Company and Kaneka North America LLC to provide job training to 154 workers in manufacturing with a $275,402 Skills Development Fund grant from the Texas Workforce Commission (TWC).

AUGUST

6 The College announces its partnership with Aggreko to host the company's enhanced SelecTech technician training program combining classroom instruction, web-based learning modules, and on-the-job training at Aggreko's Pearland Service Center.

San Jacinto College expands its transfer partnership with the University of Houston - Downtown through an articulation agreement that creates a smooth transfer pathway.

SEPTEMBER

7 Dr. Rachel Garcia receives the 2018 Outstanding Women in Texas Government award.

Groundbreaking ceremonies for the South Campus Cosmetology Center and the North Campus Cosmetology and Culinary Center were held.

San Jacinto College Foundation's annual golf tournament raises $106,000 for student scholarships and faculty grants.

8 The South Campus art gallery hosts the "Carrot Cake: Life and Career of Chuck Jones" exhibition.

San Jacinto College's contracts and purchasing team is awarded the prestigious Achievement of Excellence in Procurement award (AEP) for 2018 from the National Procurement Institute (NPI) for a fifth time.

San Jacinto College Board of Trustees Chair Marie Flickinger is named a recipient of the 2018 Governor's Volunteer Award for her work following Hurricane Harvey.

The San Jacinto College Police Department names officer Jesse Mendoza as its 2018 Officer of the Year.

4

5

6

OCTOBER

Groundbreaking ceremonies for the South Campus Engineering & Technology Center and the Central Campus Welcome Center were held.

9 Jahmal Clemons, San Jacinto College social media coordinator, is named a 2018 Key Influencer by the U.S. Navy Blue Angels.

NOVEMBER

The Board of Trustees authorizes College administration to plan, develop and construct a new facility at Generation Park, located in Northeast Harris County on the northernmost edge of the College's taxing area.

10 San Jacinto College Board of Trustees Vice Chair Dan Mims is elected to serve on the Association of Community College Trustees (ACCT) Board of Directors as a Western Region representative.

The College is named a 2018 Math Pathways Exemplar Award recipient by the Texas Association of Community Colleges (TACC), the Texas Success Center (TSC), and the Dana Center Mathematics Pathways (DCMP) at the 2018 Texas Pathways Institute.

DECEMBER

Chancellor Dr. Brenda Hellyer presented Texas State Representative Dennis Paul (District 129) with his Associate of Arts in General Studies.

11 Dow Chemical is recognized for its $250,000 donation to the College's new Center for Petrochemical, Energy, and Technology, the largest petrochemical training facility along the Texas Gulf Coast.

12 More than 1,700 Pasadena ISD students visit the San Jacinto College Central Campus for the annual See to Succeed event for free eye exams, glasses fittings, and eye care medical referrals.

SPOTLIGHT

DAVID ELLIS

After 36 years in the cosmetology industry, San Jacinto College South Campus alumnus David Ellis attributes his success to two things, his education and his work ethic.

"I owe a lot to San Jac," Ellis said. "I wouldn't be where I am today if it wasn't for the College. I love to come back and speak to students and promote the programs."

Ellis, who was among the first cohort of graduates to complete the cosmetology program at the South Campus, has worked in film, television, fashion, and often creates red carpet looks for award seasons.

"If you told me at 19 years old when I graduated that I would be working with designers and actors, I wouldn't have believed you," Ellis said. "I truly think anyone can do this, you just have to have the skills and determination."

Ellis believes that all of San Jacinto College's cosmetology graduates possess the skills they need to be successful, even in a saturated marketplace.

"Schools are turning out so many hair dressers today, but you can always spot a San Jac student," Ellis said. "San Jac sends graduates out prepared to join the workforce. That's not always the case with other schools and that is a big factor when hiring someone."

So, what is Ellis' advice for students in the cosmetology program?

"Your first year out of cosmetology school, you need to go into a shop that is very busy and fast-paced," Ellis said. "You can pick up great time management skills there. When you are making mistakes in what is almost a factory environment, that's where you learn quickly, what works and what doesn't."

With the new San Jacinto College South Campus Cosmetology Center slated to be completed spring 2020, students will be exposed to state-of-the-art technology and equipment giving them even more of a leg-up on the competition.

SOUTH CAMPUS COSMETOLOGY CENTER

GROUNDBREAKING: Sept. 2018
OPENING: Spring 2020
39,300 square feet

PROGRAMS HOUSED:
- Cosmetology
- Massage therapy

SPECIAL FEATURES:
- Full service salon open to the community

SPOTLIGHT

KEN JACKSON

If you ask a child in kindergarten what they want to be when they grow-up, some respond with, 'firefighter' or 'school teacher', but Ken Jackson took another approach. He knew what he did not want to be.

"I remember riding the bus each day and passing by a chemical plant," Jackson said. "I didn't know what it was, but I knew it had a strong odor that I didn't like. I swore I'd never work in a place like that. But now, I've been in the petrochemical field doing exactly that for more than 40 years."

During the course of his career, Jackson has worked as an operator, a trainer, consultant and now as a full-time professor in process technology.

"After college, I was working in quality control when I saw an ad in the paper hiring operators at Sun Oil, now Sunoco," Jackson said. "I was drawn in the by the salary and that's where I got my start in this industry."

Jackson, who holds a bachelor's degree in education and a master's degree in industrial management, joined San Jacinto College's longest running program as an adjunct instructor in 1998.

"I've seen our program evolve and enrollment has steadily increased, especially in the last five years," Jackson said. "When I started in the field in the 1970s, you learned on the job through an apprenticeship program. Unfortunately, that meant training was inconsistent. With the degree program at San Jacinto College, instruction is consistent, and students learn material much faster than I did as an apprentice."

As much change as Jackson has seen in his career, one thing remains constant, his passion for education.

"For me, the big reward is seeing the progress students make from their first day in the program through to graduation and working in the industry," Jackson said. "I follow some of my students on social media and it's satisfying to see them two or three years out of school in good jobs and living comfortably."

Contributing to the future success of San Jacinto College process technology graduates is the new Center for Petrochemical, Energy, and Technology opening fall 2019. Built for industry, by industry, the Center will feature an 8,000-square-foot exterior glycol process unit to develop troubleshooting skills for entry-level, advanced credit students as well as incumbent workers.

CENTRAL CAMPUS CENTER FOR PETROCHEMICAL, ENERGY, AND TECHNOLOGY

GROUNDBREAKING: Sept. 2017
OPENING: Fall 2019
151,000 square foot instructional complex with a separate process training unit

PROGRAMS HOUSED:
- Applied industrial technology and skilled trades
- Electrical technology
- Environmental health and safety technology
- Instrumentation and analyzer technology
- Non-destructive testing
- Process technology

SPECIAL FEATURES:
- 8,000-9,000 square foot exterior glycol process unit

SPOTLIGHT

CRISTHIAN HERRERA

The path to San Jacinto College wasn't always clear for Cristhian Herrera, but now that he is enrolled in the culinary program at the North Campus he sees nothing but success in his future.

After taking a few courses at a neighboring community college, Herrera felt like it wasn't the right fit for him. That's when some of his friends told him about San Jac.

"A few of my friends from the neighborhood were attending San Jac for welding," Herrera said. "I was already attending college somewhere else, and it really wasn't my cup of tea. After my first semester, I applied and it was a completely different experience."

It was during that time that Herrera started taking basic courses while working at a local restaurant. That job helped direct him to the culinary field.

"I was working in a restaurant as a food runner," Herrera said. "Eventually, I moved up to the kitchen and experimented with cooking during the slow season. I would see what I could make and create different recipes. Staff members started coming in and asking me to cook them off-menu specials. It made me feel good that I could make people happy through food."

As he progresses through the culinary program, Herrera is also gaining priceless on-the-job experience through his work with the Houston Restauarant Group owned by James Beard Award winner Hugo Ortega. Through this experience Herrera has worked at some of Houston's top restaurants including Backstreet Café, Hugo's, Caracol, and Xochi.

"Chef Hugo is very open and loves culinary students," Herrera said. "My time there is so valuable. If you take the time to observe and learn, it will come back to you. One day I'd love to be a sous chef at one of his restaurants, but I still have a lot to learn."

Enhancing this learning is the new North Campus Cosmetology and Culinary Center scheduled to be completed spring 2020. This new facility will feature updated classroom space and modern labs to enhance the training for those interested in a cosmetology or culinary career. It will also house a full-service salon and spa and a bistro dining area open to the public.

NORTH CAMPUS COSMETOLOGY AND CULINARY CENTER

GROUNDBREAKING: Sept. 2018
OPENING: Spring 2020
57,000 square feet

PROGRAMS HOUSED:
- Cosmetology
- Culinary

SPECIAL FEATURES:
- Spa and cosmetology services open to clients from the community
- Bistro Café open to public

CARLOS BELTRAN DE PAZ AND YOMARA ROJO AVALOS

Like many students making decisions on where to attend college, Yomara Rojo Avalos and Carlos Beltran De Paz assumed that a community college would be "easier" than heading straight into a university. Little did they know that community college would prepare them to excel in ways they never imagined.

Now a student in The University of Texas at Tyler's civil engineering program, Avalos was first bitten by the engineering bug at 13 years old after a school visit from a national STEM program. De Paz was on his high school's robotics team which lead to the pursuit of his mechanical engineering degree. Both enrolled in San Jacinto College's engineering program which offered them a unique experience in undergraduate research, a fairly new opportunity the College's STEM programs are providing for students.

"We know that our students are commuter students, so the traditional research and internship work experiences doesn't necessarily work for them. Many have to work full-time to afford tuition," said Dr. Connie Gomez, San Jacinto College South Campus engineering professor. "Many of our STEM faculty provide our students with opportunities to have real STEM research experience on their résumés. These faculty also invite the students to present their research which allows them to hone their public speaking and presentation skills. This will only help them excel in their chosen STEM career fields."

The College's new Engineering and Technology Center will be housed at the South Campus, and is expected to open in spring 2020. The 74,000 square-foot Center will feature computer labs with industry-standard software along with a MakerSpace featuring a 3D print shop, metal shop, and a wood shop to allow students to build their designs.

"The engineering courses are challenging, but that's part of being in the engineering field," said De Paz who will be transferring to the University of Houston - Clear Lake's mechanical engineering program. "With technology advancing from almost one hour to the next, I want to be part of building that future."

Avalos adds that the College's rigorous engineering program fully prepared her for her university's engineering program. "You have to want that challenge and accept that it's going to push you, but it's all worth it. From here on it's challenging, but engineers are built that way. The rest of your career will be taking on those challenges and finding solutions for them."

San Jacinto College engineering program advisory committee member and Stinger Ghaffarian Technologies, Inc. project manager, James Kantara, says that student interns from the College's engineering program are currently working side-by-side with professional engineers on some of the most technologically advanced projects within the space industry. "All of the College's interns who have joined us have excelled in every area they supported including system test, system integration, system engineering, cyber security, platform engineering, software engineering, and engineering change management. Our engineering management team has taken notice of the caliber of San Jacinto College engineering interns, their technical knowledge, their academic competence, their ability to work in and keep up with our experienced engineering teams, their impeccable work ethic, and their talent for learning new technical skills."

Gomez concludes that this is just one more way that the College is continuing its innovative leadership in community college education. "All of these opportunities make the difference."

SOUTH CAMPUS ENGINEERING AND TECHNOLOGY CENTER

GROUNDBREAKING: Oct. 2018
OPENING: Spring 2020

A.J. ELSNER

As a member of the San Jacinto College Central Campus educational planning, counseling, and completion department, A.J. Elsner is one of the staff members soon-to-be housed in the campus' new Welcome Center opening spring 2020.

An alumnus of the College, Elsner is able to see many facets of the college experience which helps him in his role as an educational planner. However, he understands that completing college is not a one-size-fits-all formula.

"Many of our students are first-generation college students, so they don't have anyone at home to guide them through the experience of what it means to be a college student," said Elsner. "Sometimes just one question or conversation you have with a student can change their life. As educational planners, we strive to meet each individual student wherever they are at along their educational journey."

He adds that the journey itself changes more rapidly than most people realize, and celebrating those changes and differences is something Elsner and the College's educational planning, counseling, and completion staff members strive to embrace.

"Being able to help a student find their path, even if it looks very different from your own, is why we're here. The students we see at commencement are the ones that we've seen in our offices, and we know the obstacles, stumbles, and sacrifices they've faced to earn that cap and gown. It's unbelievably rewarding to see them walk across the stage knowing that they have accomplished a goal that at one point they thought was impossible. We really are changing students' lives every day."

CENTRAL CAMPUS WELCOME CENTER

GROUNDBREAKING: Oct. 2018
OPENING: Spring 2020
56,000 square feet

SAN JACINTO COLLEGE FOUNDATION EXPERIENCE GALA

In an innovative twist to its traditional biennial gala, the San Jacinto College Foundation hosted its Pathways Experience event at the San Jacinto College North Campus Center for Industrial Technology. Guests enjoyed interactive displays to explore the College's degree and certificate pathways. The Foundation posthumously awarded the San Jacinto College Foundation Legacy Award to World War II U.S. Army veteran and longtime resident of the North Channel area, the late Dr. B.J. Westbrook. Westbrook led a life of service through funding scholarships, equipment purchases, and establishing a scholarship for San Jacinto College students.

WAYNE AND KRISTA HOVEY

Students in San Jacinto College's technical programs will have additional scholarship opportunities thanks to Wayne and Krista Hovey. In what Krista refers to as "Wayne's brainchild," after more than 27 years as an operator in the petrochemical industry, the Hoveys wanted to pay it forward, and by chance, Wayne found a way to do that.

"Before he passed away, Wayne was sitting at the kitchen table one night looking up various charitable organizations online," said Krista, who is a San Jacinto College engineering design graphics program alumna. "All of a sudden, he came across the San Jacinto College Foundation webpage, and it really struck a chord with him. Throughout his years working, he often had to train young incoming operators who didn't have some of the basic skills necessary to do their jobs. When he saw what the College is doing with their technical programs, especially the new Center for Petrochemical, Energy, and Technology, he said he wanted to leave a legacy for future students entering the workforce."

Krista is now carrying Wayne's vision forward with their scholarship endowment for high school students entering into the College's technical programs. "I worked at NASA in flight simulation design then later as a configuration management auditor. None of that would have been possible without my training as an engineering design drafter at San Jacinto College. In both of our fields, Wayne and I noticed that there was always a short supply of well-trained workers who could repair the machines, troubleshoot the errors, and read the drawings. He just really wanted to ensure that students have these workforce opportunities available to them in order to make a great living that doesn't always require a four-year degree."

For more information on how to donate, set up a planned gift, or get more information on scholarship endowments, visit **sanjac.edu/foundation**.

ABOUT THE SAN JACINTO COLLEGE FOUNDATION

Thousands of students achieve their goals, earn their certificates or degrees, and become positive and productive leaders in our community through the assistance of the San Jacinto College Foundation. Founded in 1996 by community members of East Harris County, the Foundation's mission is to ensure that no one is denied a college education due to a lack of financial means. Over time, the Foundation has expanded its role to include a wide variety of programs and services. Individuals, foundations, and corporate partnerships assist in achieving this goal, but there is so much more to do. With your help, the Foundation can grow to meet the needs of more students in our community.
Give a scholarship. Support a veteran. Arrange a planned gift. Provide program funding. Make an annual donation. Join the alumni association. Volunteer.

Your tax deductible gift will change lives.
Contact us at 281-998-6104 or sanjac.edu/foundation.

QUICK FACTS

WHO WE SERVE

San Jacinto College serves the communities and citizens of East Harris County, Texas. In addition to portions of the Pearland and Humble Independent School Districts (ISDs), the San Jacinto College taxing district includes the Channelview, Deer Park, Galena Park, La Porte, Pasadena and Sheldon ISDs. The College's service area also incorporates the Harris county portion of Clear Creek ISD.

2018 YEAR ON SOCIAL MEDIA: THE SAN JAC STORY

We will always remember 2018 as the year video dominated our social platforms. The College's Instagram account overtook the Facebook page for engagement fueled by the behind-the-scenes glimpses of campus life and activities. Facebook was still a major player, and we streamed everything from the commencement festivities to interviews, and more than a few campus activities. Campus geostickers were quite popular because it gave students a chance to show off their unique San Jac life. We're savvy about showing our San Jacinto College pride around the net, and we love to brag about the fantastic opportunities our students secure for themselves.

SAN JACINTO COLLEGE FINANCIAL REVIEW

The following is an overview of the College's financial operations for the fiscal year ended August 31, 2018 (FY 2018). Most of the information contained within this Report to the Community is extracted from the financial information contained within the FY 2018 Comprehensive Annual Financial Report (CAFR). The CAFR is a more detailed and complete financial presentation prepared in conformance with Generally Accepted Accounting Principles (GAAP) and was audited by the College's independent auditors, which resulted in the College receiving an unmodified opinion. An unmodified opinion is given when an auditor can state that the financial statements are accurately and fairly presented in all material respects. The College's CAFR is available on the College's website at sanjac.edu/annual-financial-reports.

FINANCIAL HIGHLIGHTS: ASSETS, LIABILITIES AND NET POSITION

The College's financial position in FY 2018 continues to remain strong with total assets of $701 million, total liabilities of $632 million, and total net position of $60.6 million. Along with all governmental entities nationwide, the College was required to book a liability due to implementation of the Government Accounting Standards Board (GASB) Statement 75 in the amount of $90.6 million. Other than the implementation of this GASB provision, total net position increased by $2.7 million in 2018, a 7.1 percent increase. The following is prepared from the College's Statement of Net Position and provides a summary of its assets, liabilities and net position for the year ended August 31, 2018 (amounts expressed in millions):

ASSETS & DEFERRED OUTFLOWS

Current assets	113.2
Capital assets, net of depreciation	461.2
Other noncurrent assets & deferred outflows	144.1
Total assets and deferred outflows	**$718.5**

LIABILITIES & DEFERRED INFLOWS

Current liabilities	63.2
Noncurrent liabilities & deferred inflows	594.7
Total liabilities and deferred inflows	**$657.9**

NET POSITION

Net investment in capital assets	124.4
Restricted - expendable	1.8
Unrestricted*	(65.6)
Total net position	**$60.6**

**Negative due to GASB 75 implementation*

REVENUES

MISSION

Our mission is to ensure student success, create seamless transitions, and enrich the quality of life in the communities we serve.

VISION

San Jacinto College will be the leader in educational excellence and in the achievement of equity among diverse populations. We will empower students to achieve their goals, redefine their expectations, and encourage their exploration of new opportunities. Our passions are people, learning, innovation, and continuous improvement.

VALUES

COLLABORATION:

We Work Together. We work together for the benefit of the college.

DIVERSITY:

Celebrate the Differences. We celebrate the diversity of ideas and cultures.

INTEGRITY:

Ethical and Professional. We act in ways which instill confidence and trust.

ACCOUNTABILITY:

It's Up to Us. We take responsibility for our commitments and outcomes.

STUDENT SUCCESS:

Our Ultimate Measure. We enable students to achieve their goals.

INNOVATION:

Lead the Way. We apply our knowledge, skill, insight, and imagination to recognize opportunities, solve problems, and recommend new solutions.

EXCELLENCE:

In Everything We Do. We achieve quality results in everything we do.

SENSE OF COMMUNITY:

Caring for Those We Serve and Ourselves. We demonstrate genuine concern for the well-being of our students, our community and ourselves.

BUILDING
THE FUTURE
