

**FAA Part 107 Test Prep  
Starting in May 2019**

**CENTRAL CAMPUS  
8060 Spencer Hwy  
Pasadena, TX 77505**

Course provides overview of Federal Aviation Administration's Part 107 (Commercial Drone Pilot) Test.\*

This 8-hour, one-day course offered at our central campus will prepare students for the FAA Part 107 test. The course covers material such as laws, safety, weather, aerodynamic principles, and airspace. Students will be required to read material prior to class. Instructor will present overview of material. All materials provided.

Fee: \$139 (No refunds will be issued after class begins)

Part 107.61: Must be at least 16 years of age. Must be able to read, speak, write, and understand the English language. If the applicant is unable to meet one of these requirements due to medical reasons, the FAA may place such operating limitations on that applicant's certificate as are necessary for the safe operation of the small unmanned aircraft. Must not know or have reason to know that he or she has a physical or mental condition that would interfere with the safe operation of a small unmanned aircraft system.

\*Note: Completion of course does not guarantee a passing test score.
