

ASQ Quality Process Analyst Certification Exam Review

San Jacinto College in partnership with ASQ chapter 1422 is offering Quality Process Analyst Certification Review, a 16 hour course. This course will focus on the Body of Knowledge that will be covered in the ASQ exam. This course supplements the Basics of Quality course and will focus on data collection and analysis. Students are expected to spend additional time outside the classroom in personal study prior to the exam.

Five domains will be covered – Quality Concepts and Tools, Problem Solving and Improvement, Data Analysis, Customer-Supplier Relations, and Corrective and Protective Action.

Duration: 16 classroom hours.

PREREQUISITE: ASQ Basics of Quality

LEARNING OBJECTIVES

To review the Body of Knowledge for the Quality Process Analyst certification. To identify testing format and approaches to test-taking.

ASQ Quality Process Analyst Certification

Education and/or Experience

The applicant must have two years of work experience, or an Associate's Degree or two years of equivalent higher education.
