

Spring 2021 Group/Drop-in Tutoring

No appointment is needed. You can join the sessions and work on coursework. If you have a question, a tutor will be available to help. You can also drop-in with a quick question rather than having to set up an appointment.

This will help if you feel you don't really need a whole tutoring session. You can join with friends or classmates, if you want.

The sessions will be held every week. Here are the available subjects and Zoom links for group/drop-in tutoring:
