

HESI A2 Admission Exam – Medical Radiography

Exam Information

The HESI A2 admission exam is a timed, computerized test which is usually completed in 3-4 hours. There is a 4.5-hour time limit. All applicants for the Medical Radiography and Diagnostic Medical Sonography programs are required to take this exam and submit their score sheet with the program application. Submitted scores will be verified by the application review committees.

There are five sections of the HESI A2 exam required: Reading Comprehension, Grammar, Vocabulary/General Knowledge, Math, and Anatomy/Physiology. Applicants must also complete the Learning Style section; however, it will not be scored. There is not a minimum score requirement; however, a cumulative score of 70% and a score of 70% in each of the five sections is highly recommended. If an applicant desires to retake the HESI, ALL FIVE SECTIONS must be retaken. Only one score sheet may be submitted with an application. Scores on individual exam sections which are printed on separate score sheets will not be accepted. Applicants are only permitted to take the HESI A2 exam two (2) times per academic year (September – August).

Applicants must take the HESI A2 Exam through San Jacinto College to apply for one of the Medical Imaging programs. The Exam must have been taken within 2 years of the program application deadline. Students who took the San Jacinto College Medical Radiography or San Jacinto College Medical Imaging Exam administered through Proctor U or Prometric March 2020 to May 2022, may submit those scores provided they do not exceed the 2-year limit and were not deemed ineligible or invalid.
