THINKING ABOUT GOING TO COLLEGE???

You may need to take the TSI assessment. Don't worry, though! San Jacinto College's Student Success Center can help!

What is the TSI assessment?

This is a test you take before taking college classes for credit. You can take college preparatory courses without passing the assessment, but credit courses require passing scores on the exam.*

Once you pass the assessment, you are good to go!

*You may be exempt from the assessment. There are some exemptions based on SAT and ACT scores, as well as veteran status. You can find the exemptions by searching online for: Texas Education Agency TSIA Exemptions.

Not exempt? What to do now?

Attend a FREE TSIA prep session at San Jacinto College. These sessions are designed to review the material covered on the exam and help set you up for success!

You **do not** need to be a student at SJC to attend! These sessions are open to the public.
